

CAPABILITY DECK

GOING AN EXTRA MILE

Asynk is a results-driven tech company, crafting cutting-edge digital experiences through artificial intelligence, custom web development, strategic design, and performance-driven marketing solutions tailored to elevate your brand.

ABOUT ASYNK

we don't sell services — we
solve business challenges.

We partner with growing brands to remove friction, unlock scale, and build systems that actually work. Whether it's smarter technology, sustainable growth, or sharper digital presence, our focus is always on real impact, not noise.

Our why is simple: going the extra mile for business.

That means thinking beyond briefs, aligning deeply with your goals, and building solutions designed for long-term growth.

OUR MISSION

Our mission is to help brands grow to the level they've always envisioned — and beyond.

We work closely with businesses to remove growth barriers, build smarter systems, and create strategies that scale with ambition. By combining technology, creativity, and performance-driven thinking, we focus on progress that's sustainable, measurable, and future-ready.

At Asynk, growth isn't just a goal — it's a responsibility we take personally.

That's why we go the extra mile, every step of the way.

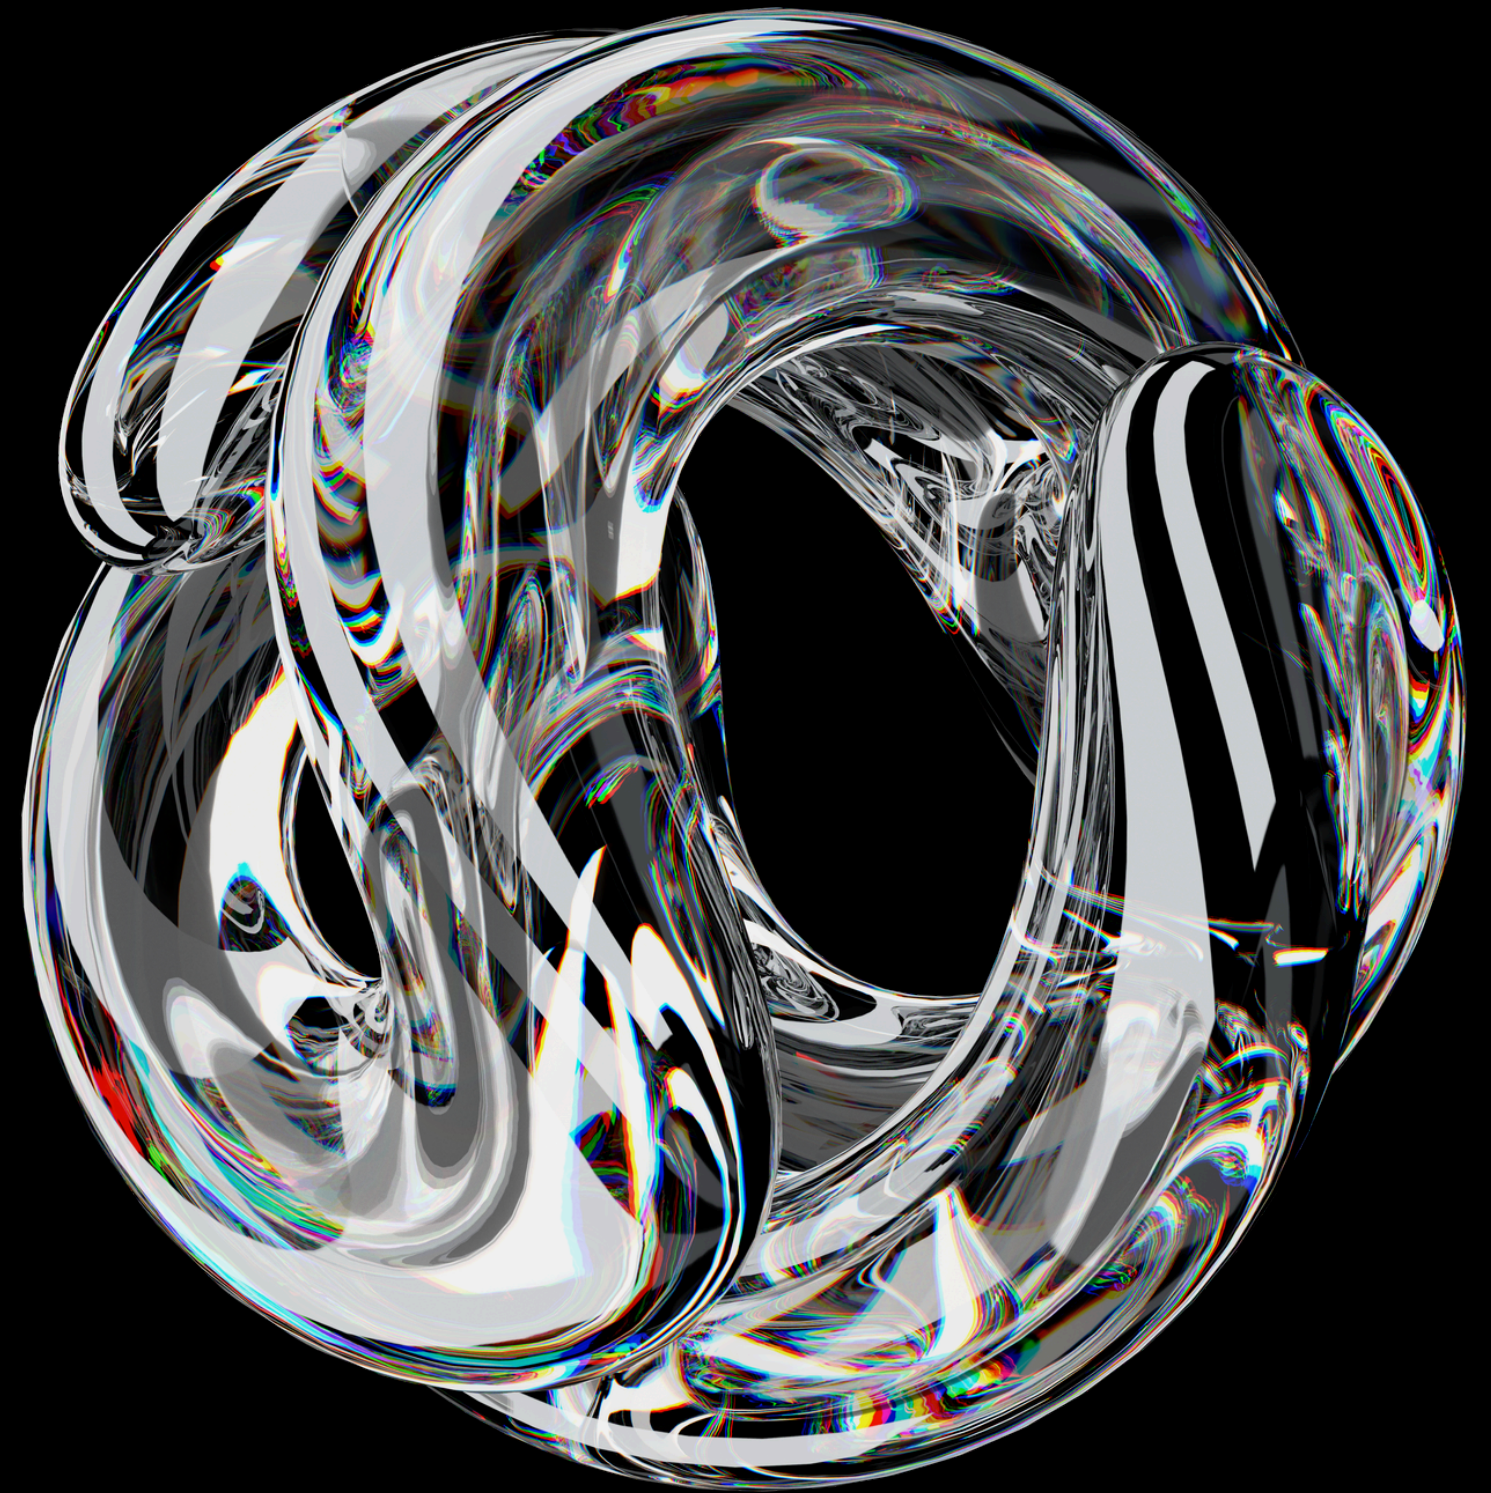

OUR VISION

Our vision is to shape a future where brands grow without limitations — powered by intelligent systems, meaningful digital experiences, and strategies built for long-term success.

We aim to be the partner businesses trust at every stage of growth, helping them scale with clarity, confidence, and purpose. By continuously evolving with technology and consumer behavior, we envision creating brands that are not just visible, but valuable, resilient, and future-ready.

At Asynk, our vision is rooted in one belief: when we go the extra mile for business, growth becomes inevitable.

REEL REPORTS - TEXT TO VIDEO AI TOOL

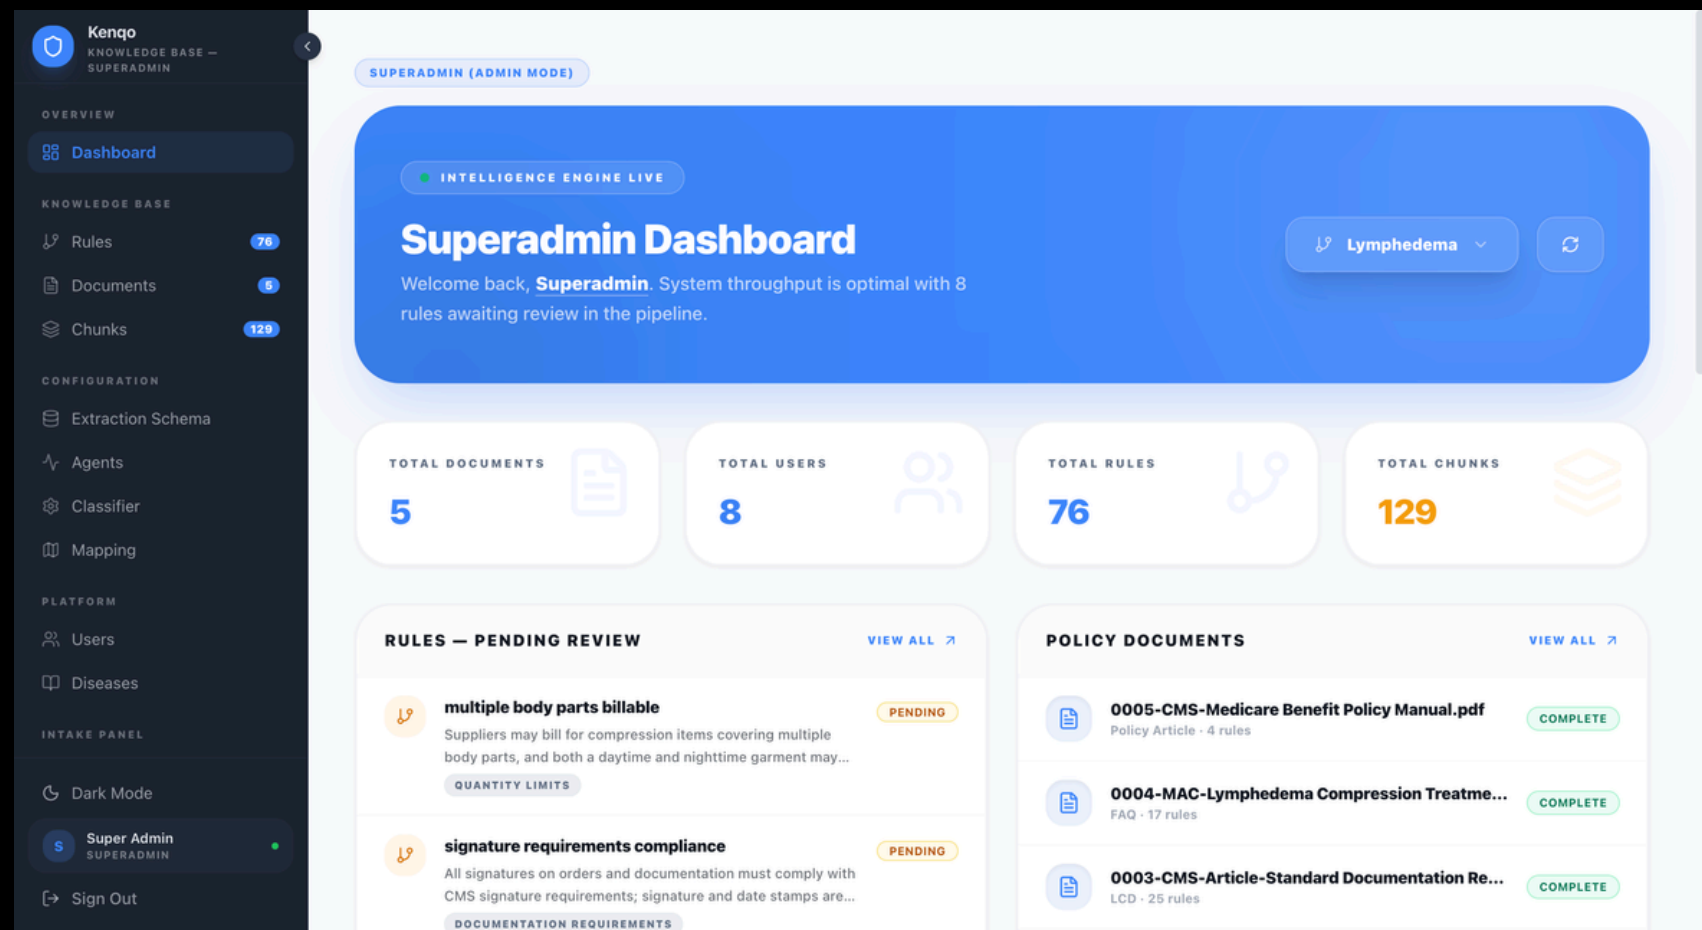

ReelReports.ai is an AI-powered software platform designed to transform text-based content into engaging videos.

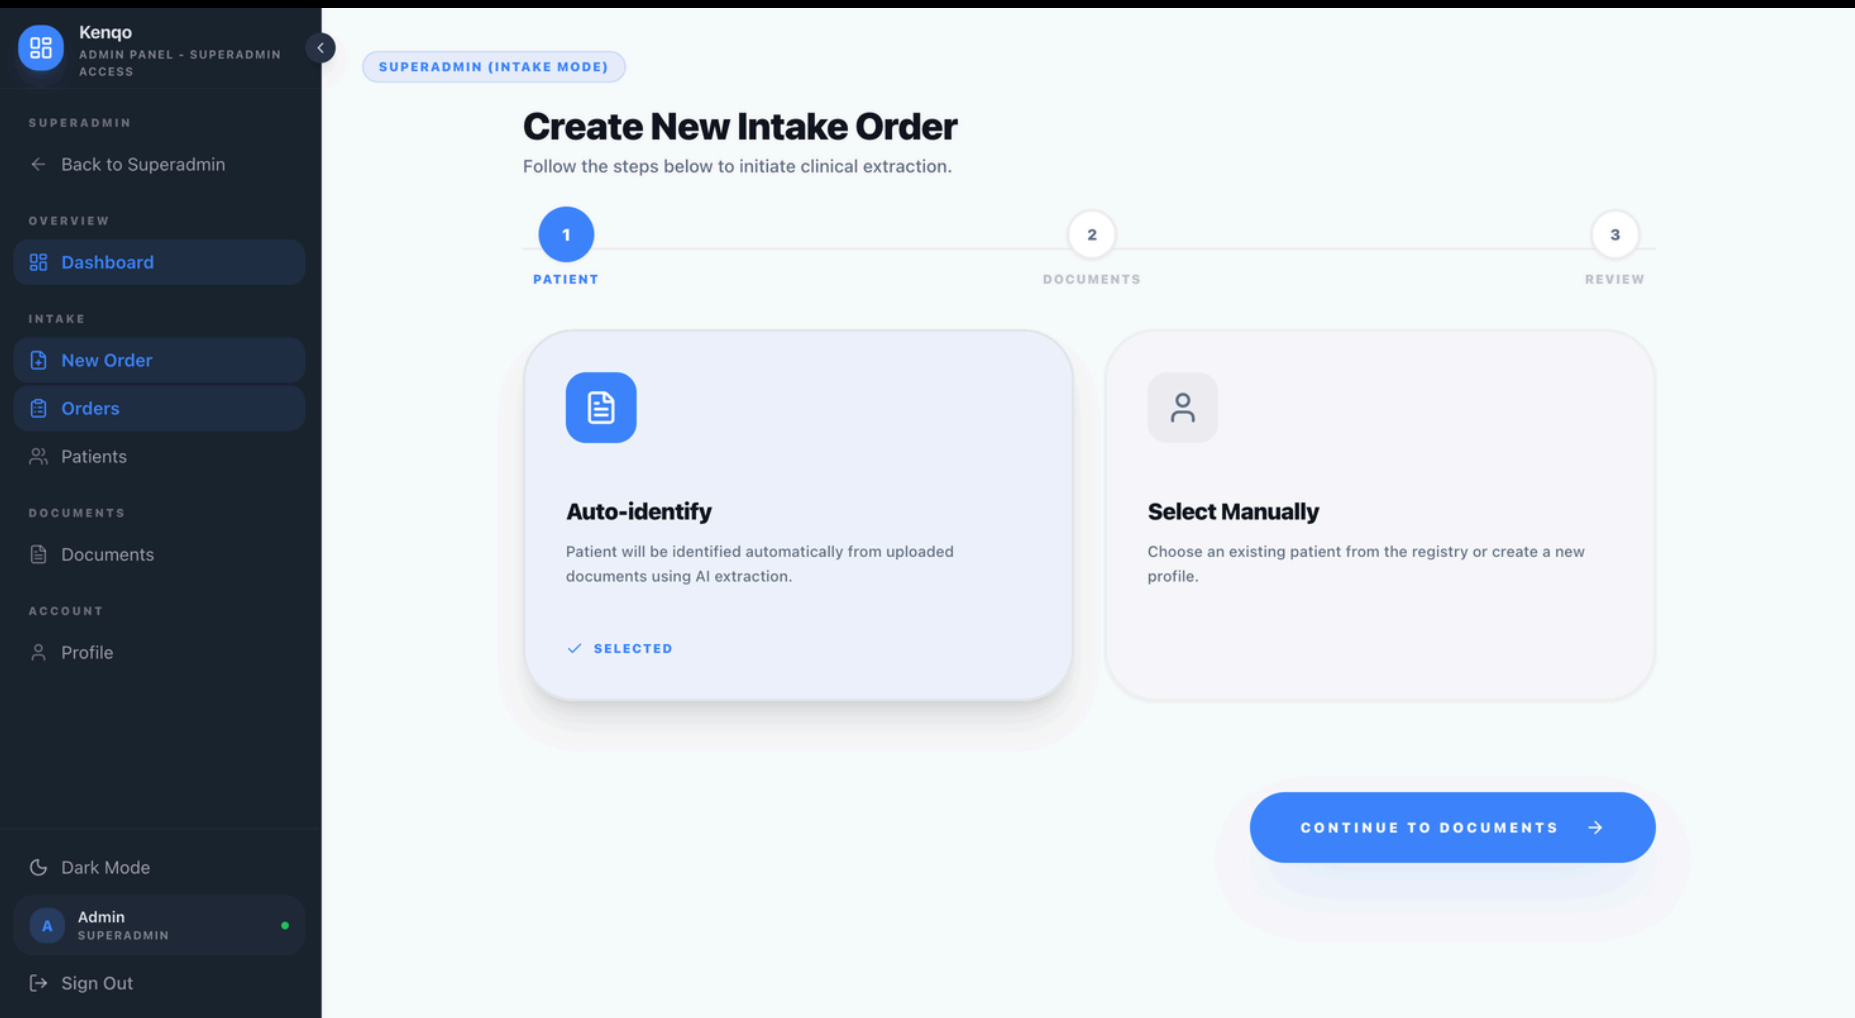

- Successfully launched a Generative AI text-to-video software platform
- Delivered a production-ready AI SaaS product
- Enabled users to convert text into engaging videos automatically

KENQO.AI - PATIENT INSURANCE VERIFICATION AUTOMATION SYSTEM

Designed as a scalable SaaS product, Kenqo.AI can adapt to different medical conditions, insurance processes, and provider requirements, making it a powerful automation layer for modern healthcare operations.

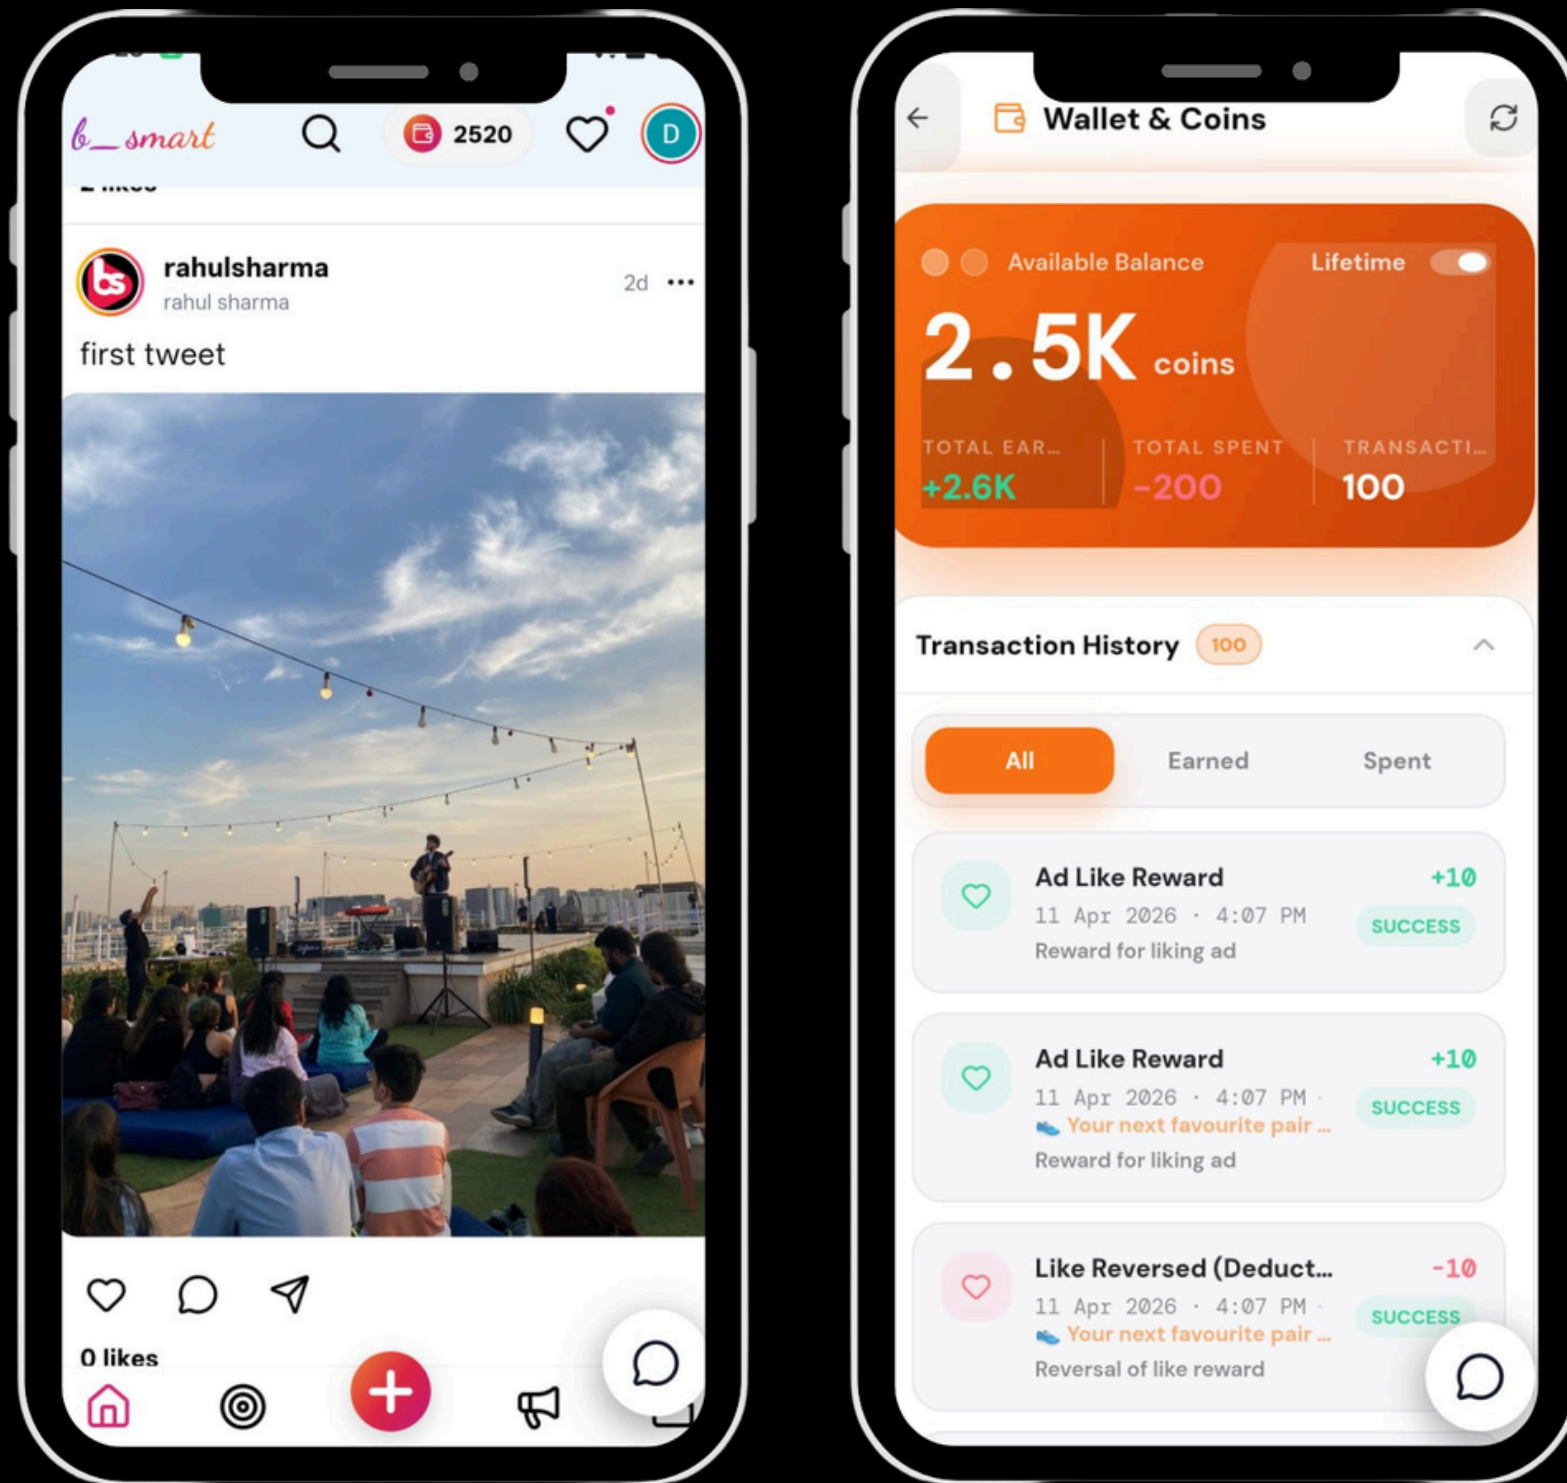

Kenqo.AI is an AI-powered SaaS automation tool built for the USA healthcare market to streamline patient insurance verification across multiple disease-specific workflows. The system uses computer vision and advanced AI LLMs to read, extract, validate, and process insurance-related documents, reducing manual effort for healthcare teams.

BSMART - SOCIAL MEDIA MARKETPLACE (ONGOING)

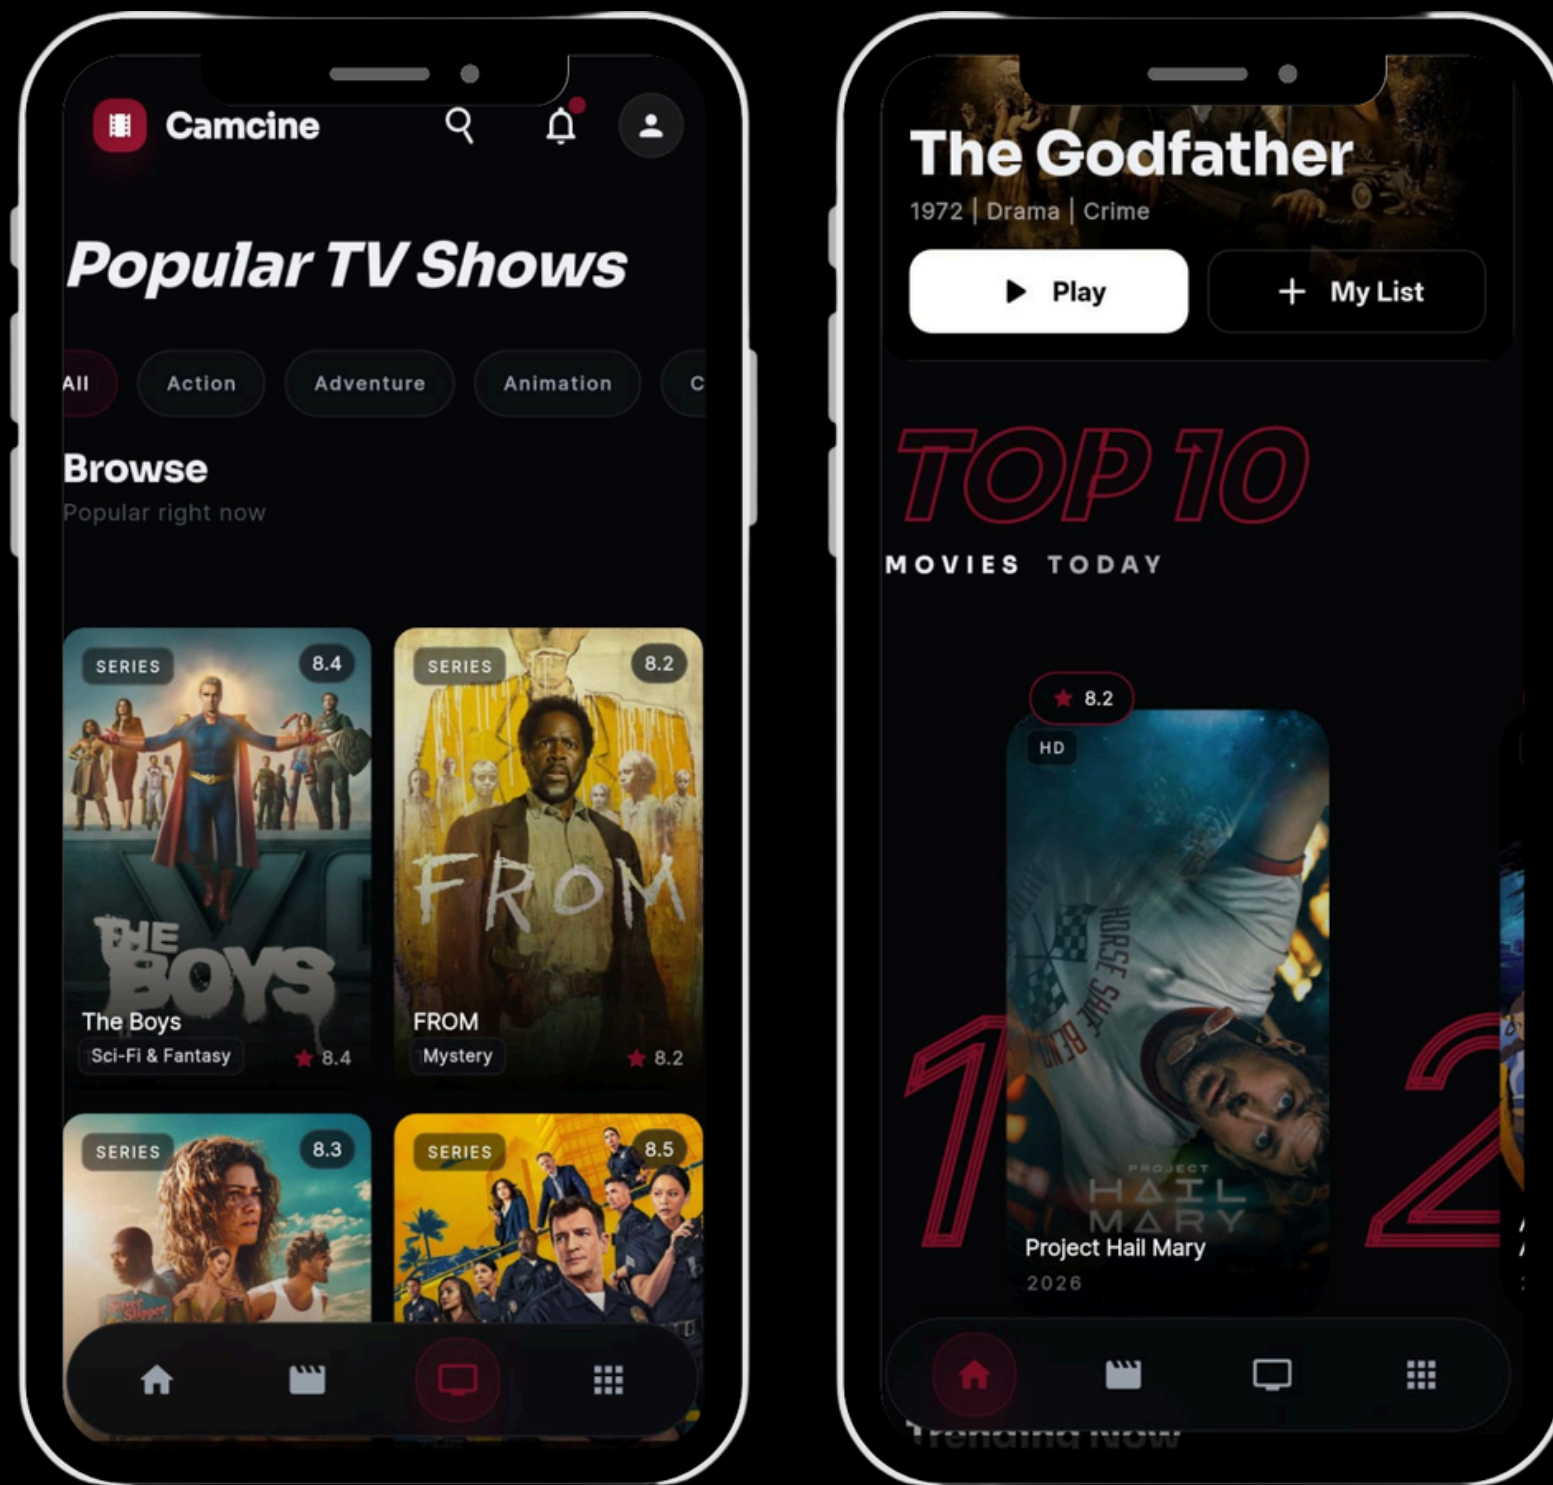

Asynk is building Bsmart, a dynamic social content platform designed to blend entertainment, discovery, and commerce into one seamless experience.

Key Highlights

- Short videos, statics, and engaging content in one placeReal-time updates and centralized data
- Earn points by watching, interacting, and exploring content.
- Smart discovery engine for personalized feeds
- Vendors can list content and directly market their products
- Seamless bridge between content consumption and commerce
- Simple, addictive UI built for everyday users

With Bsmart, Asynk is creating a next-generation social platform that goes beyond just scrolling. It empowers users to engage, earn, and discover, while enabling vendors to connect, promote, and grow—all within a single, smart ecosystem.

CAMCINE - OTT PLATFORM (ONGOING)

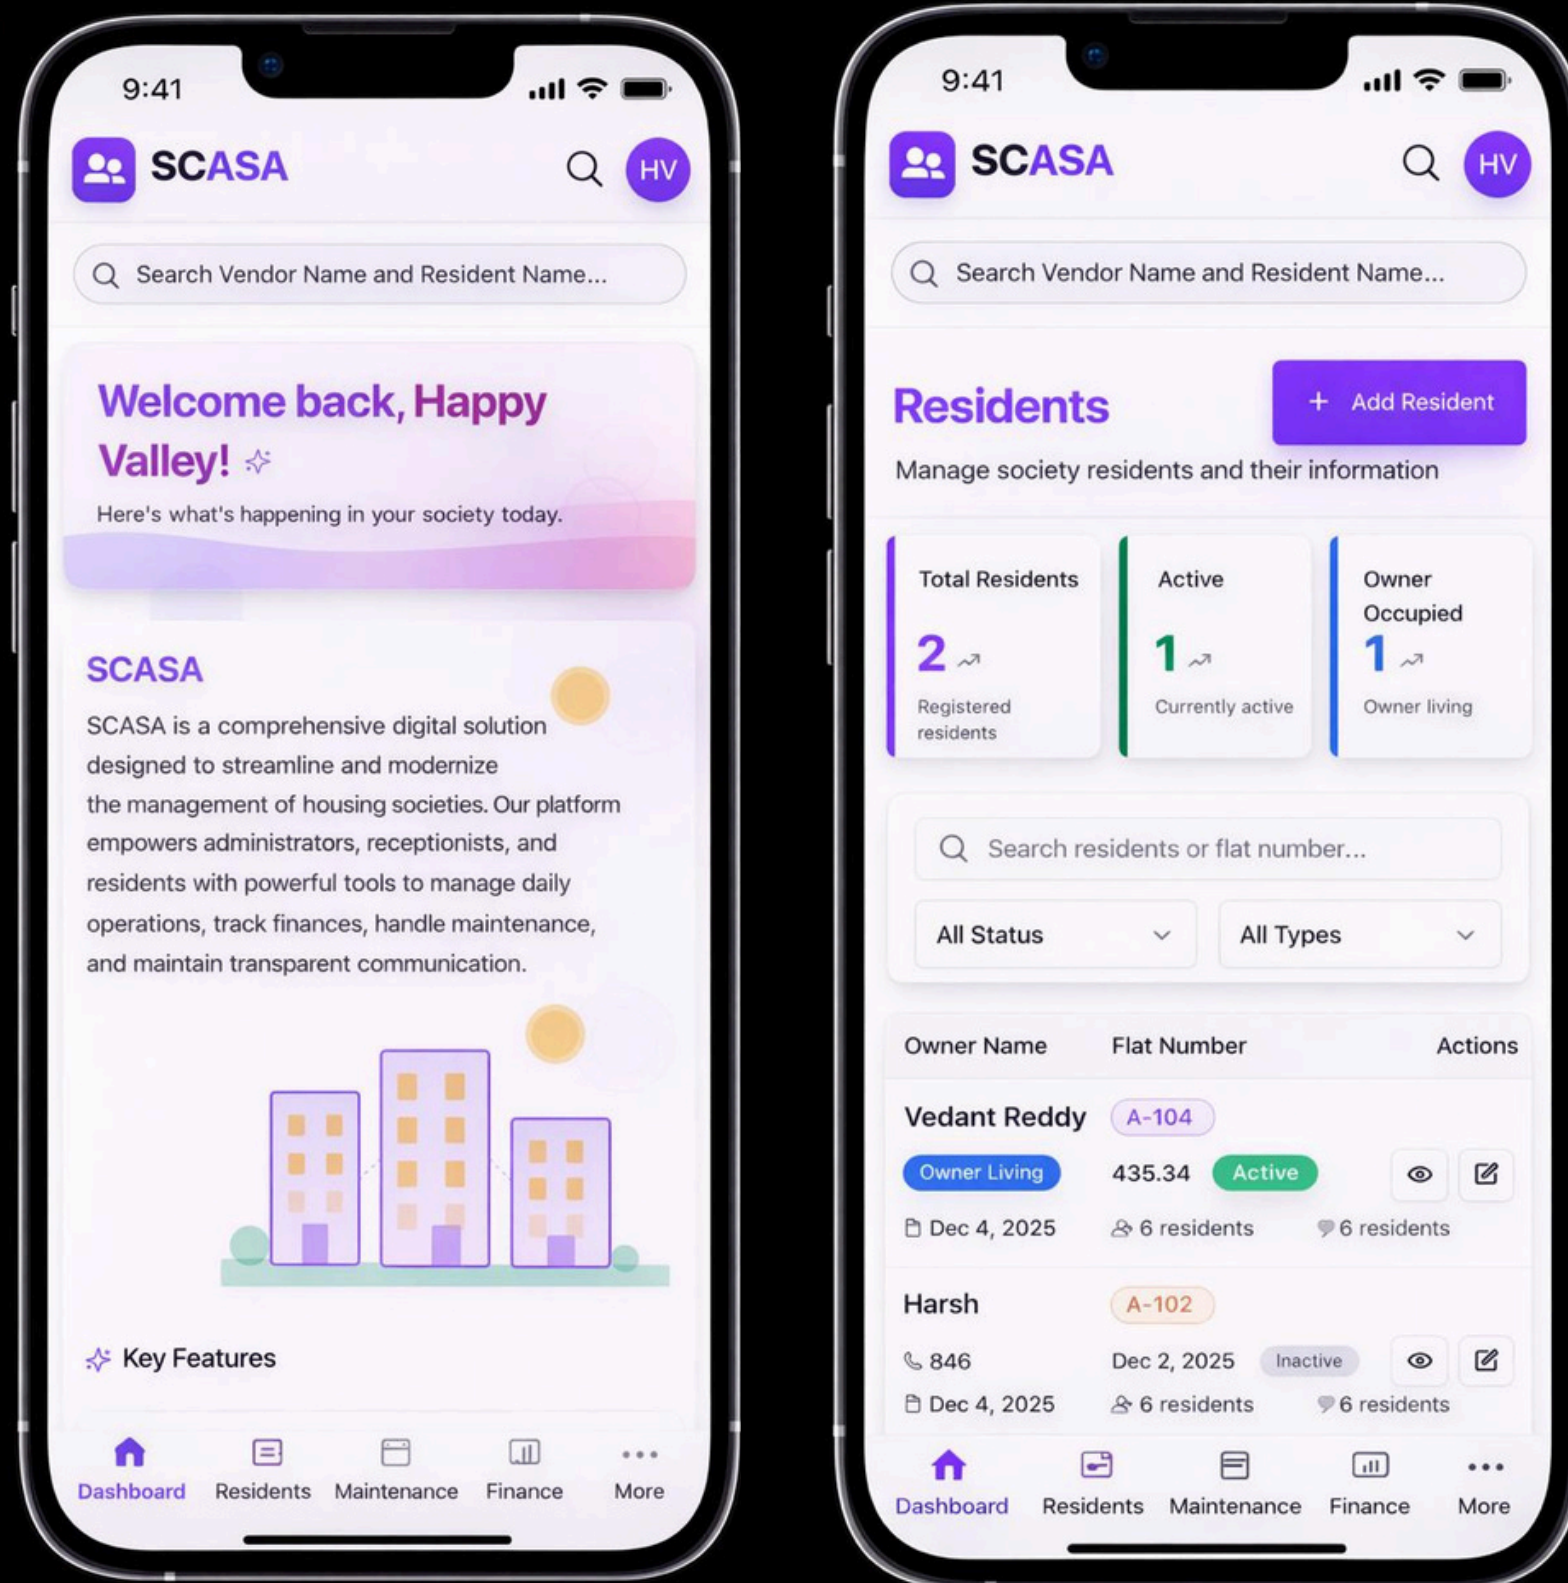

Asynk is building Camcine, a powerful OTT platform designed to bring together global entertainment, regional storytelling, and real-time updates—all in one place.

Key Highlights

- Access to regional and international movies, shows, and series.
- Integrated music library with trending and classic songs.
- Live and on-demand news from multiple sources
- Personalized recommendations for every viewer
- Seamless streaming experience across devices
- Clean, intuitive UI designed for all age groups

With Camcine, Asynk is redefining digital entertainment by combining content, culture, and convenience. The platform delivers a unified viewing experience—where users can watch, listen, and stay informed effortlessly, making entertainment truly limitless.

SCASA - SOCIETY MANAGEMENT SOFTWARE

Asynk designed and developed a comprehensive society management platform with role-based access and intuitive workflows.

Key Highlights

- One platform for Admin, Reception, and Residents
- Real-time updates and centralized data
- Scalable architecture for multiple societies
- Simple UI designed for all age groups
- Secure, transparent, and paperless operations

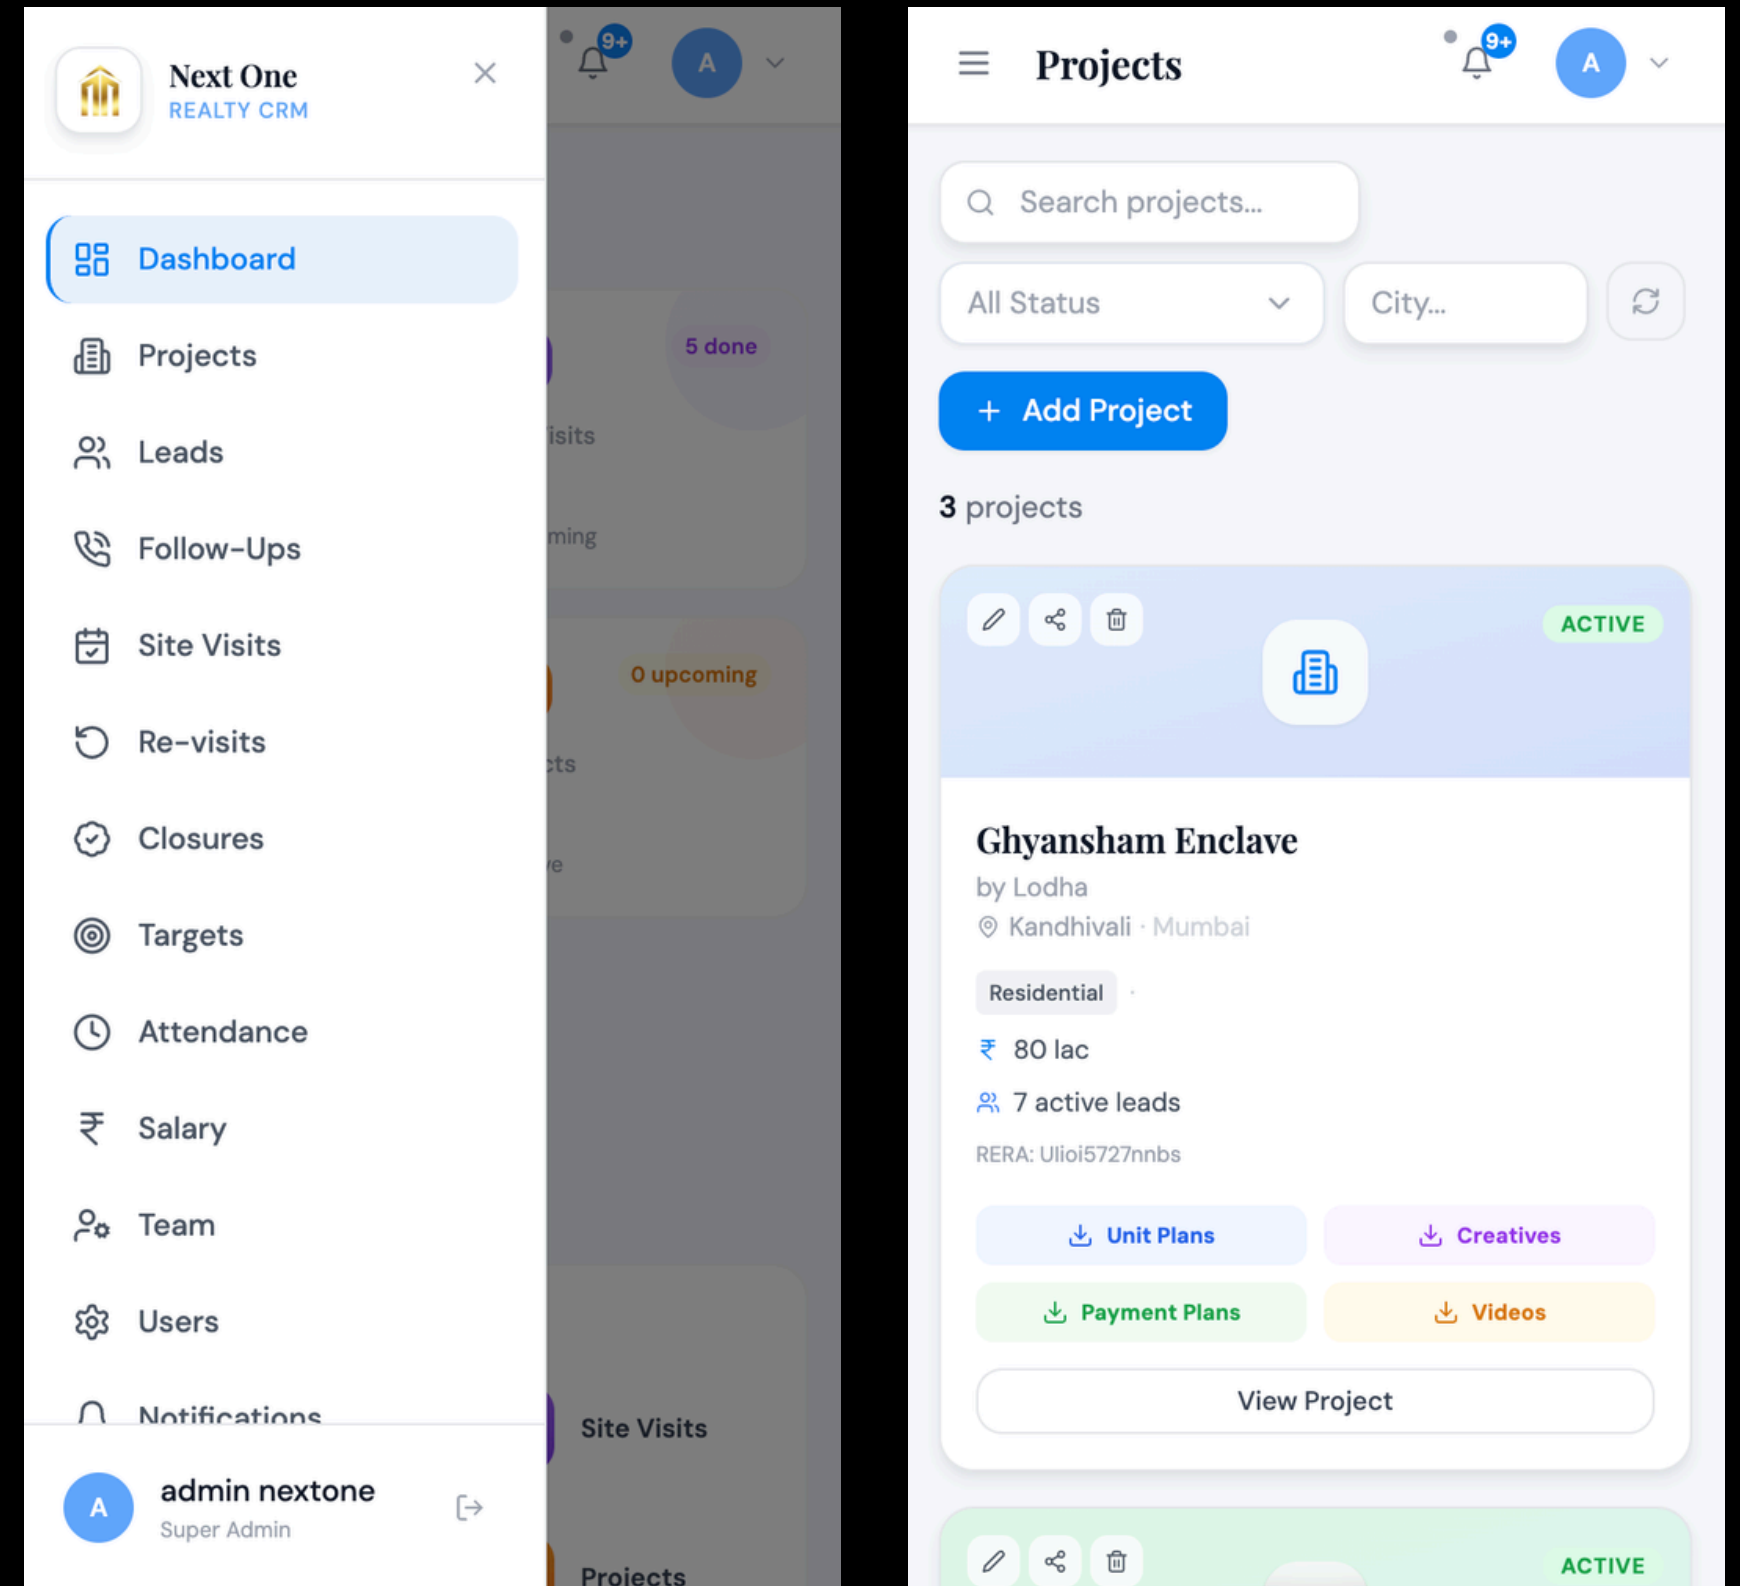

With SCASA, Asynk successfully delivered a future-ready Society Management Software that modernizes housing society operations end-to-end. The platform not only simplifies management tasks but also enhances resident experience and operational transparency—making smart living truly smart.

NEXT ONE CRM - REAL ESTATE CRM

Asynk developed a comprehensive Real Estate CRM Software for Next One Realty to help the team manage leads, properties, clients, brokers, and sales operations from a single centralized platform. The system was designed to replace scattered spreadsheets, manual follow-ups, and disconnected communication channels with a smart digital workflow built specifically for real estate teams.

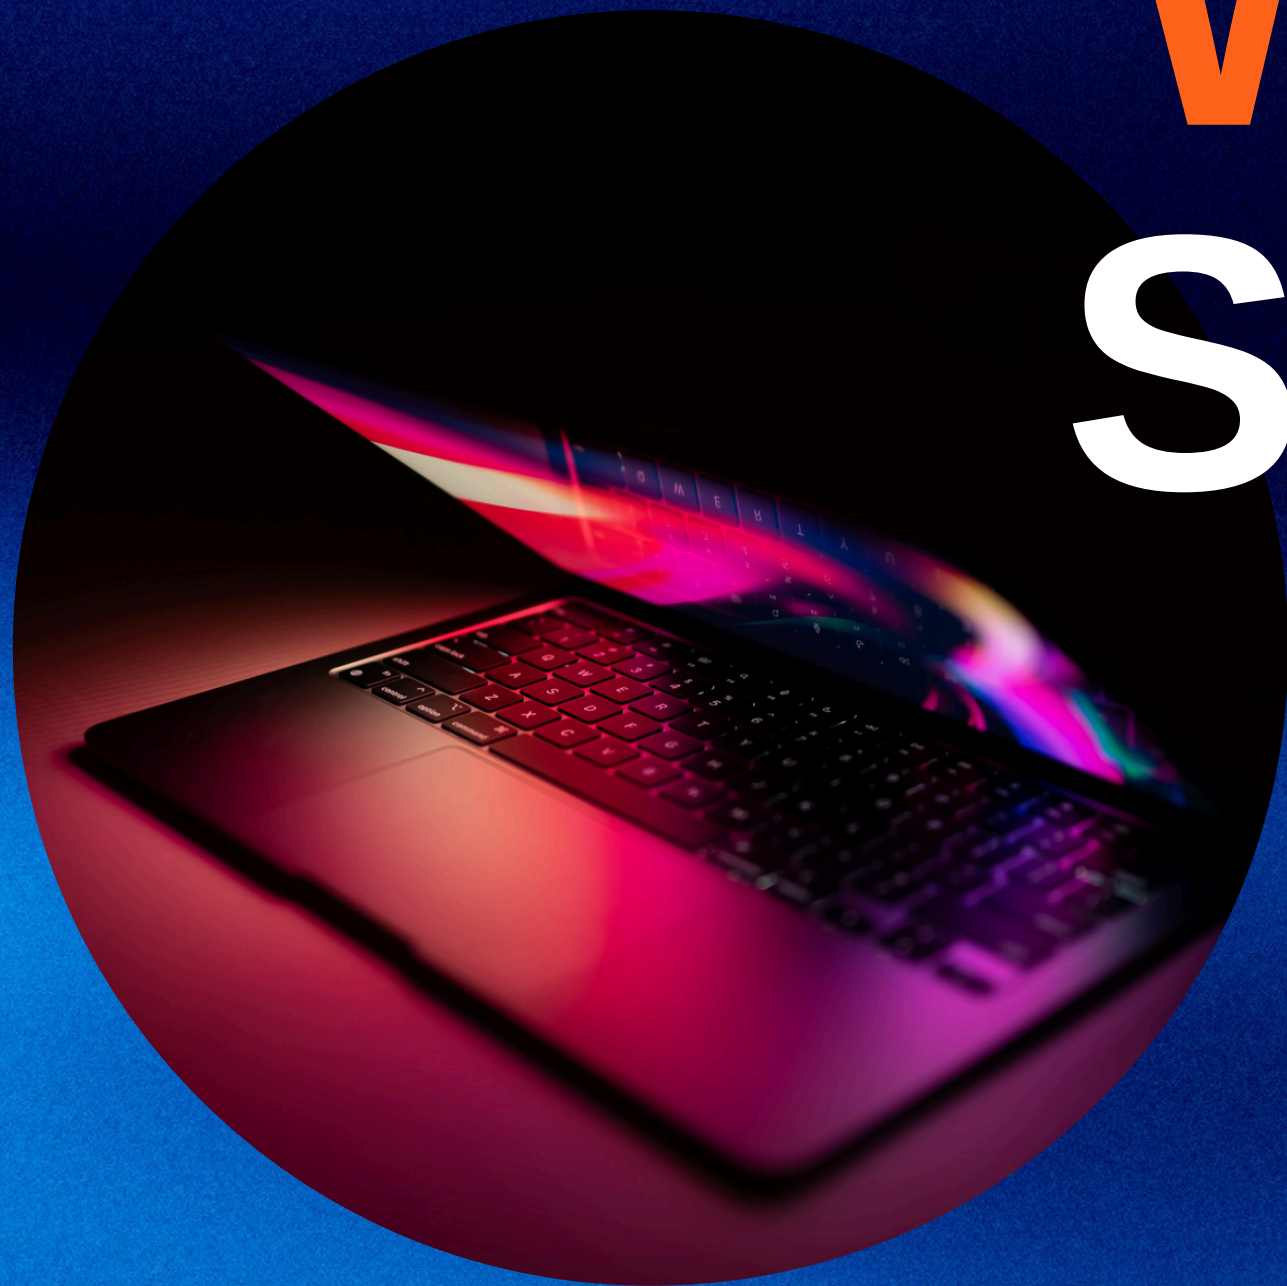

Key Highlights

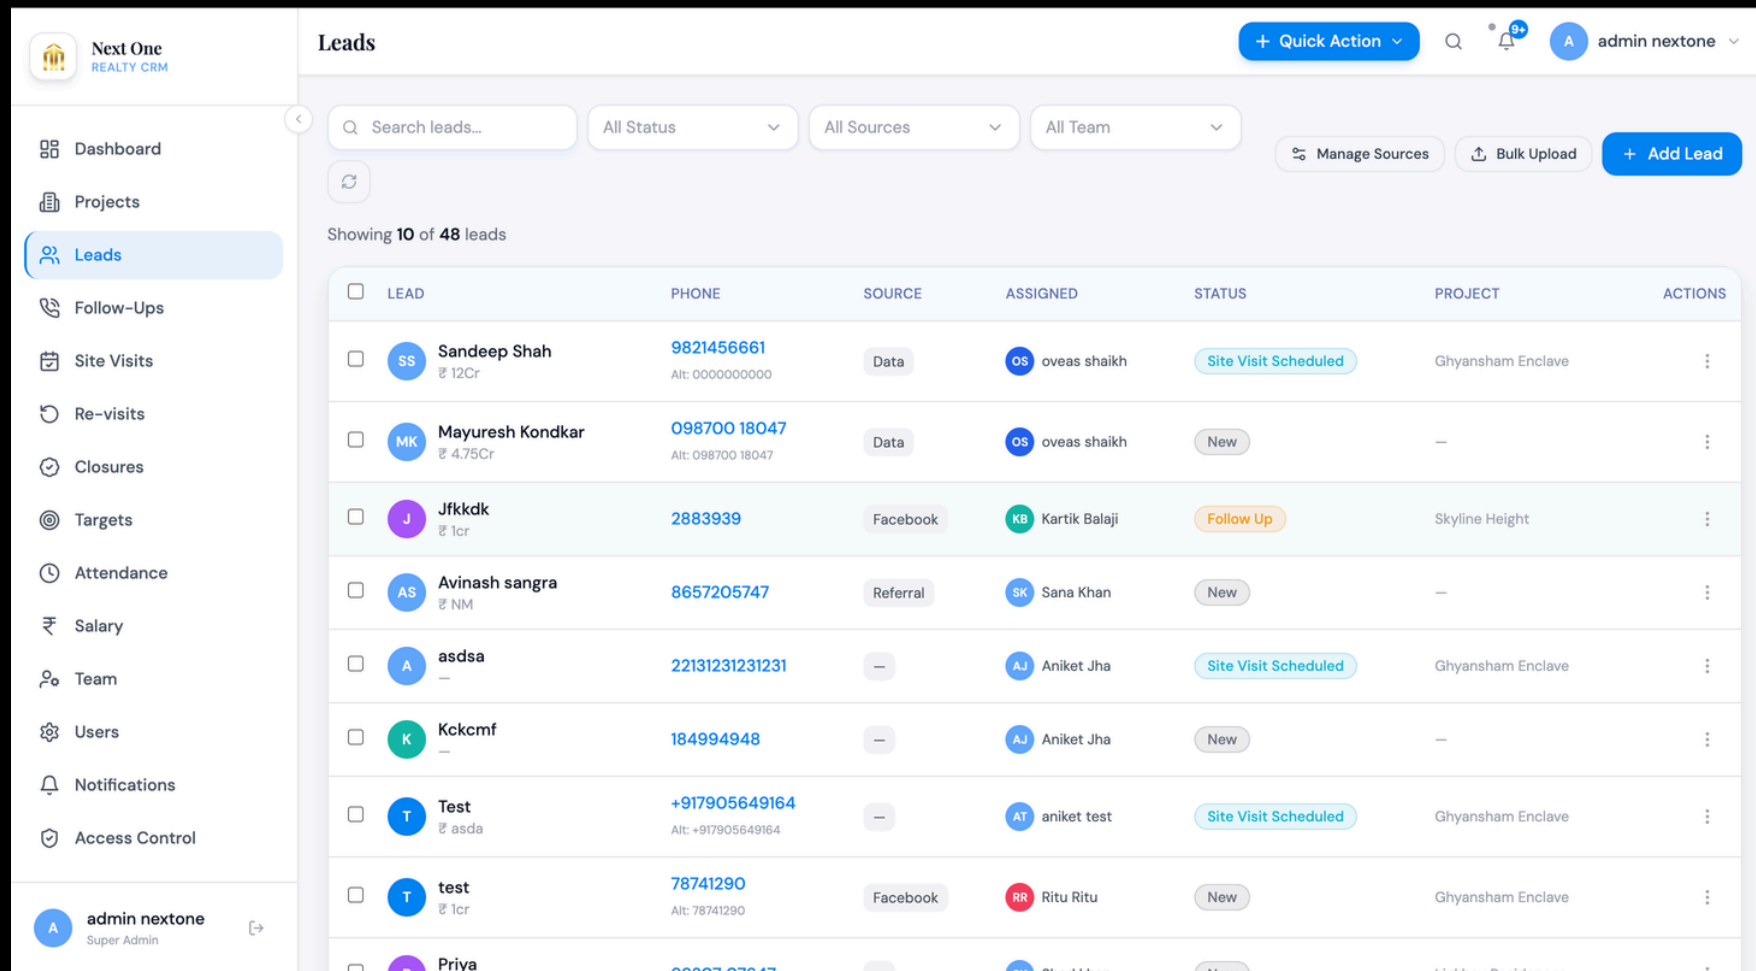

- All-in-one CRM for real estate operations
- Centralized lead and client management
- Property inventory and listing management
- Automated follow-ups and reminders
- Broker and team coordination
- Sales pipeline tracking and performance insights
- Scalable for growing real estate teams and multiple projects

WEBSITES & SOFTWARES

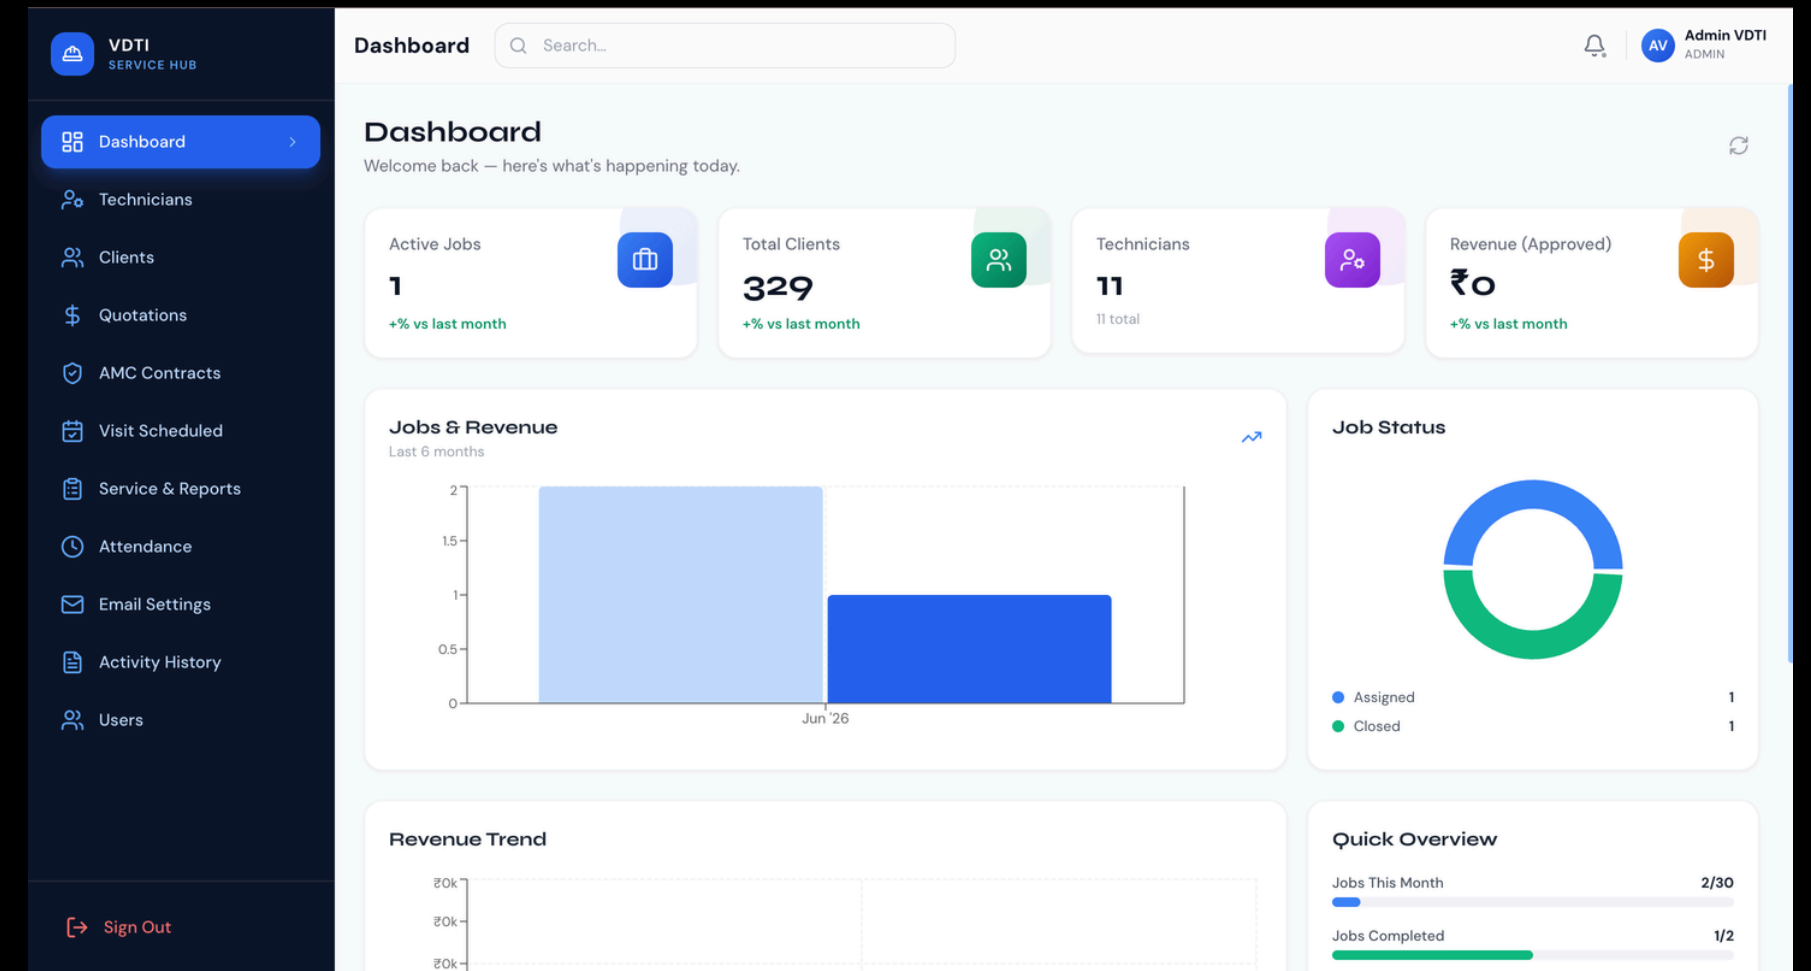

SMART SOFTWARE. SEAMLESS
WEBSITES. REAL RESULTS.

Next One Realty

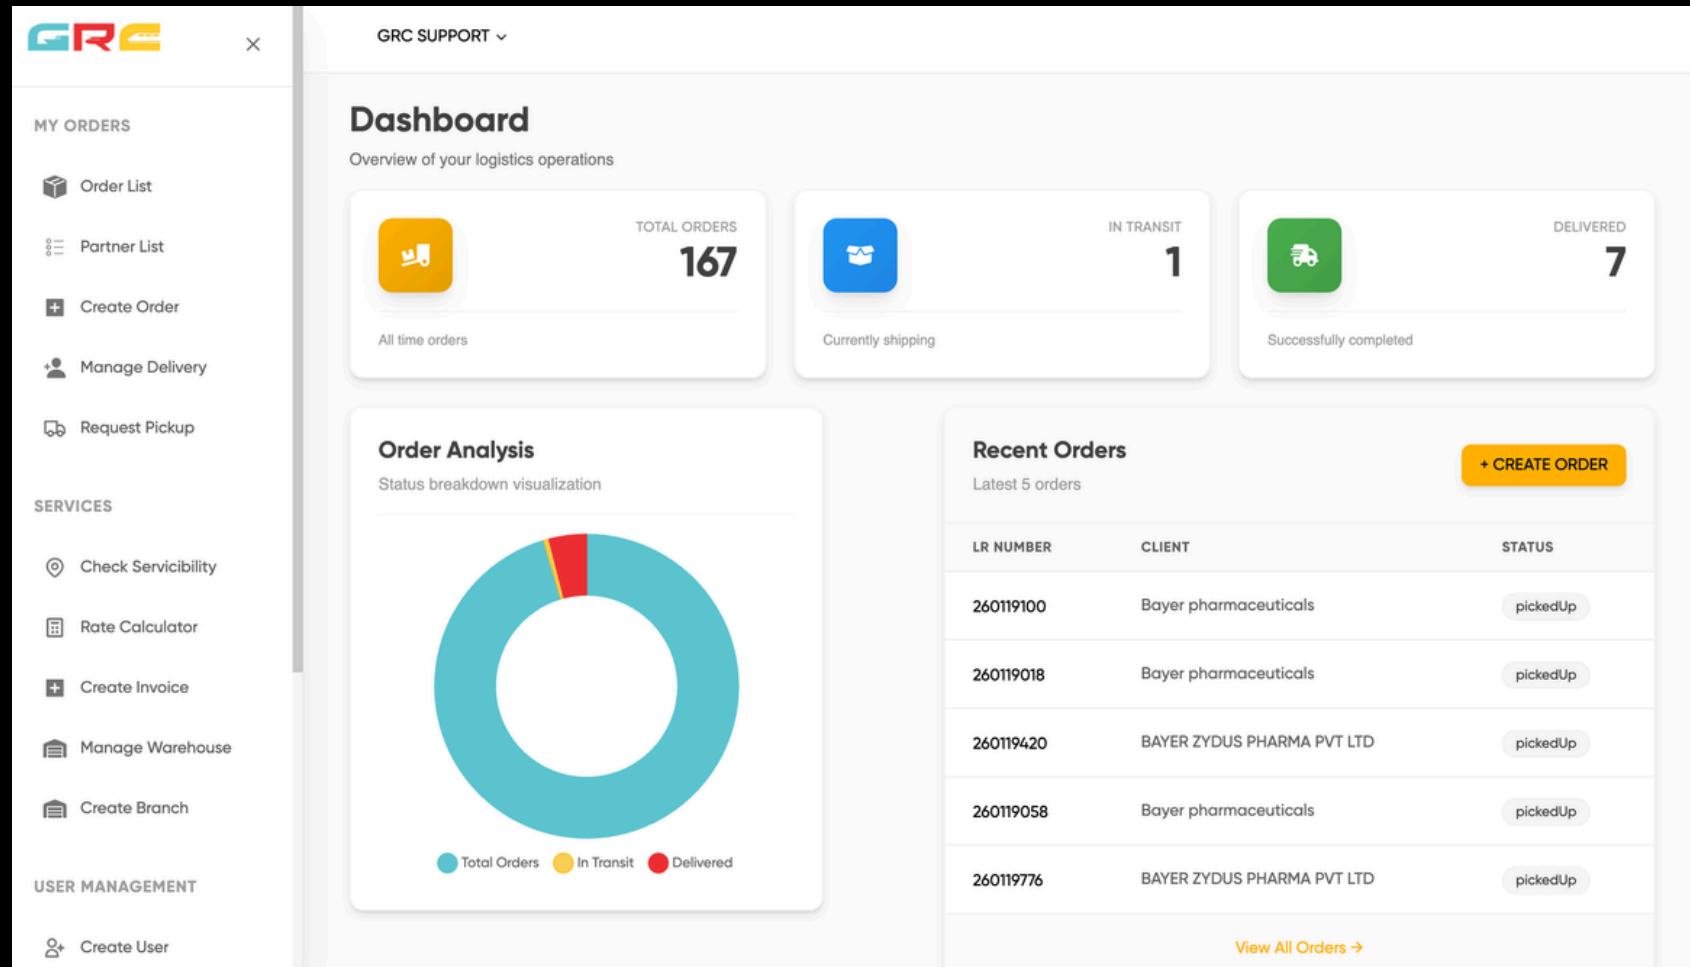

Asynk's Real Estate CRM Software empowers Next One Realty to manage customer relationships more efficiently, improve lead conversion, track every opportunity, and make faster data-driven business decisions while the platform handles day-to-day real estate operations seamlessly.

Vacuum Dry Technology Private Limited

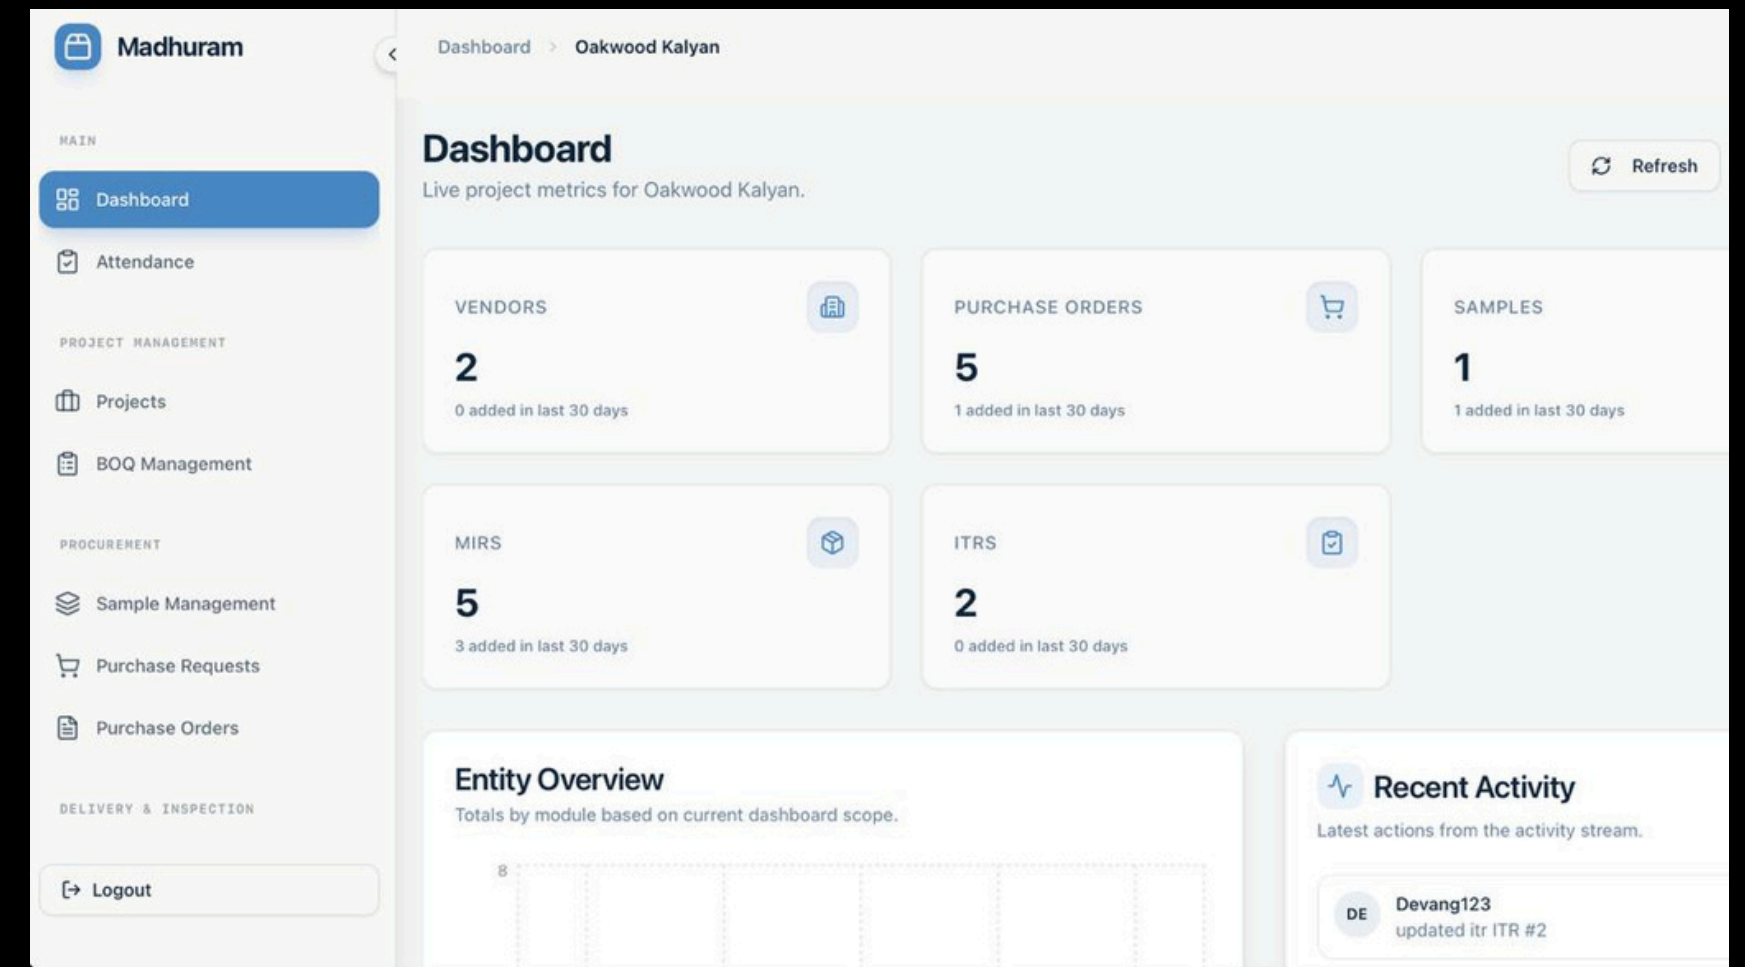

Asynk developed a customized Inspection Management Software for Vacuum Dry Technology Private Limited to help the team manage inspections, reports, operational workflows, and internal coordination from a single digital platform.

CRM SOFTWARES

GRC Logistics

Built a complete digital and operational ecosystem including a professional corporate website and custom CRM logistics management system for end-to-end shipment and operations management.

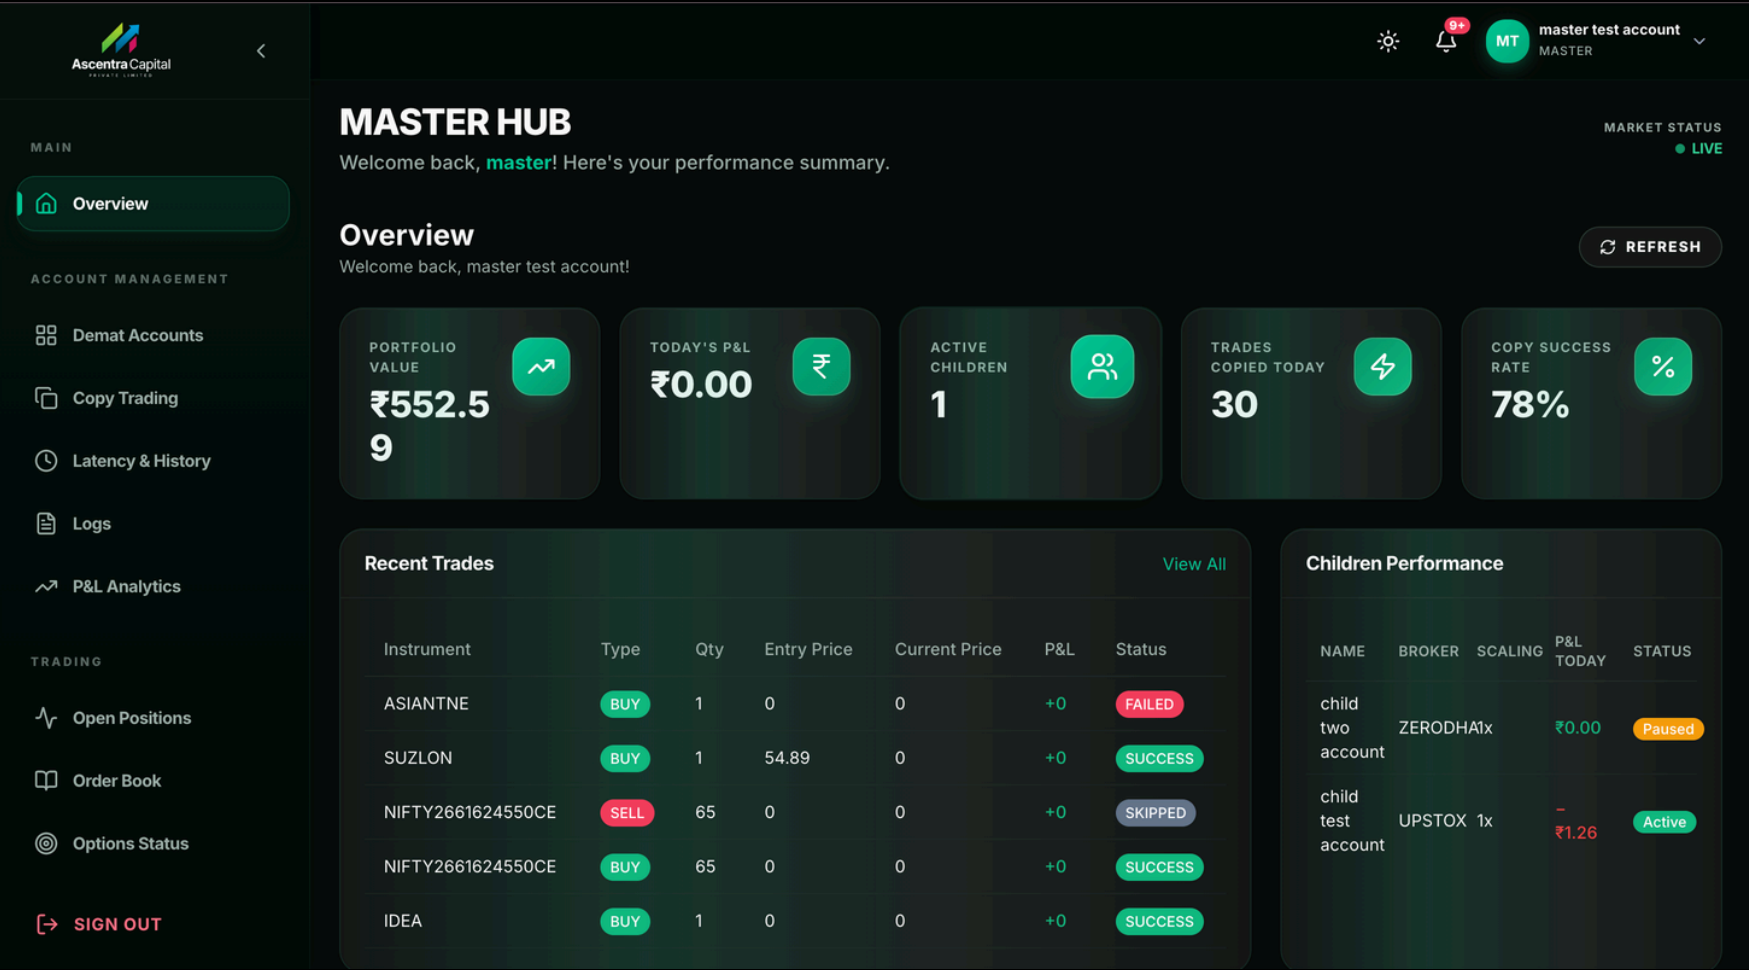

Madhuram Enterprises CRM

Asynk designed and developed Inventory Management and Project Management Software for the Client. It manages Sample, Purchase Orders and Billing

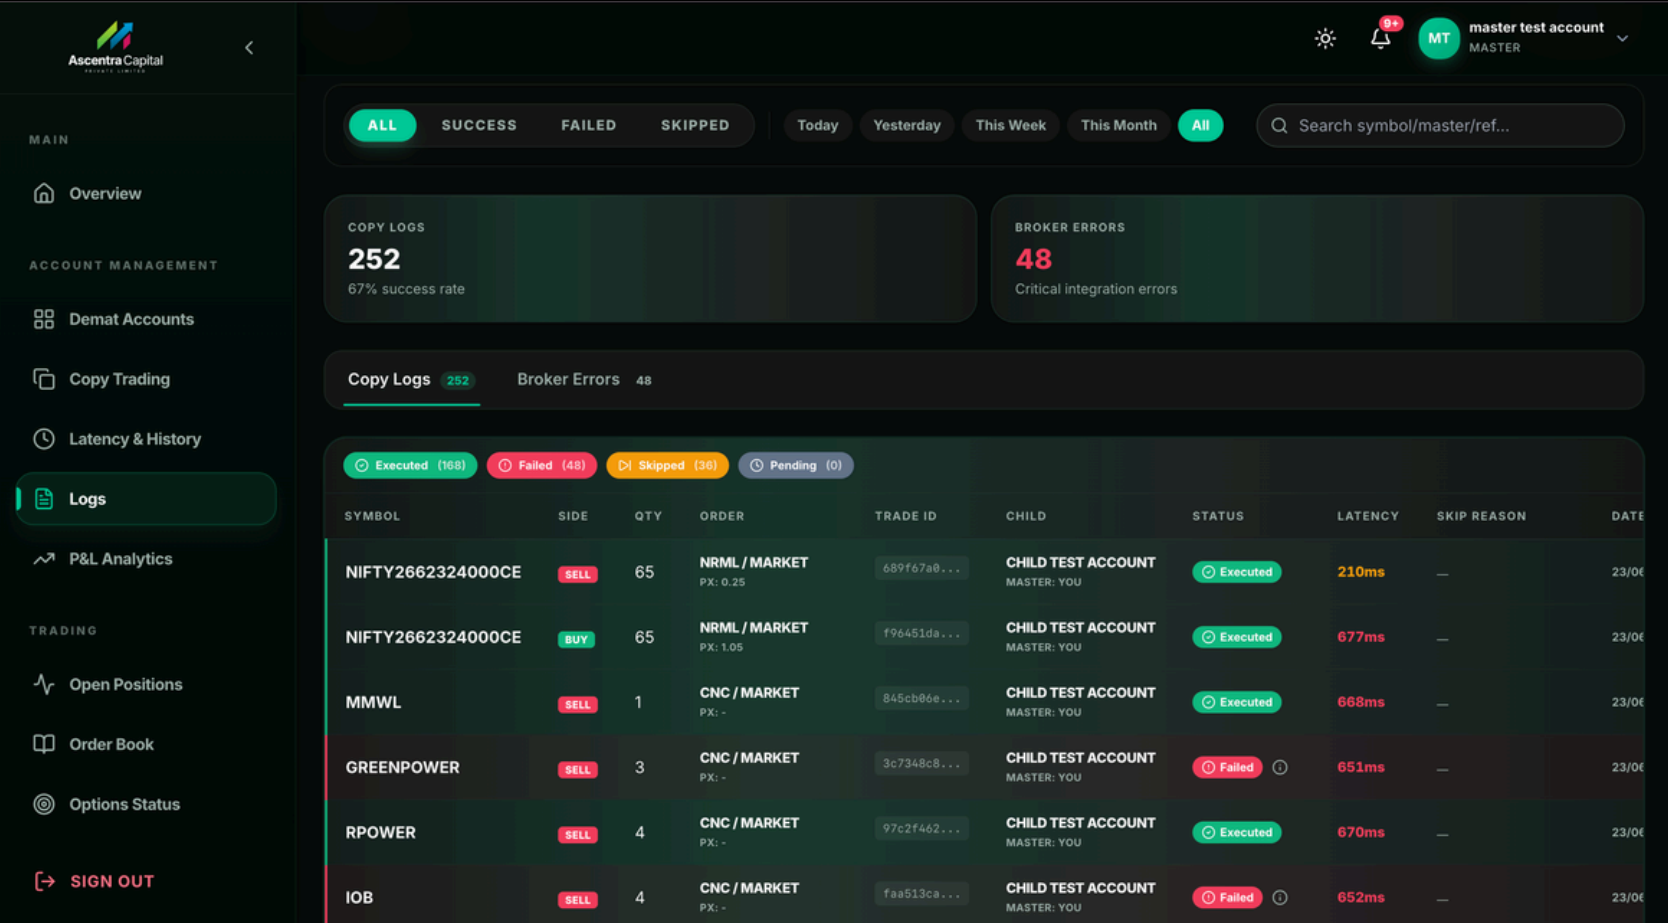

CRM SOFTWARES

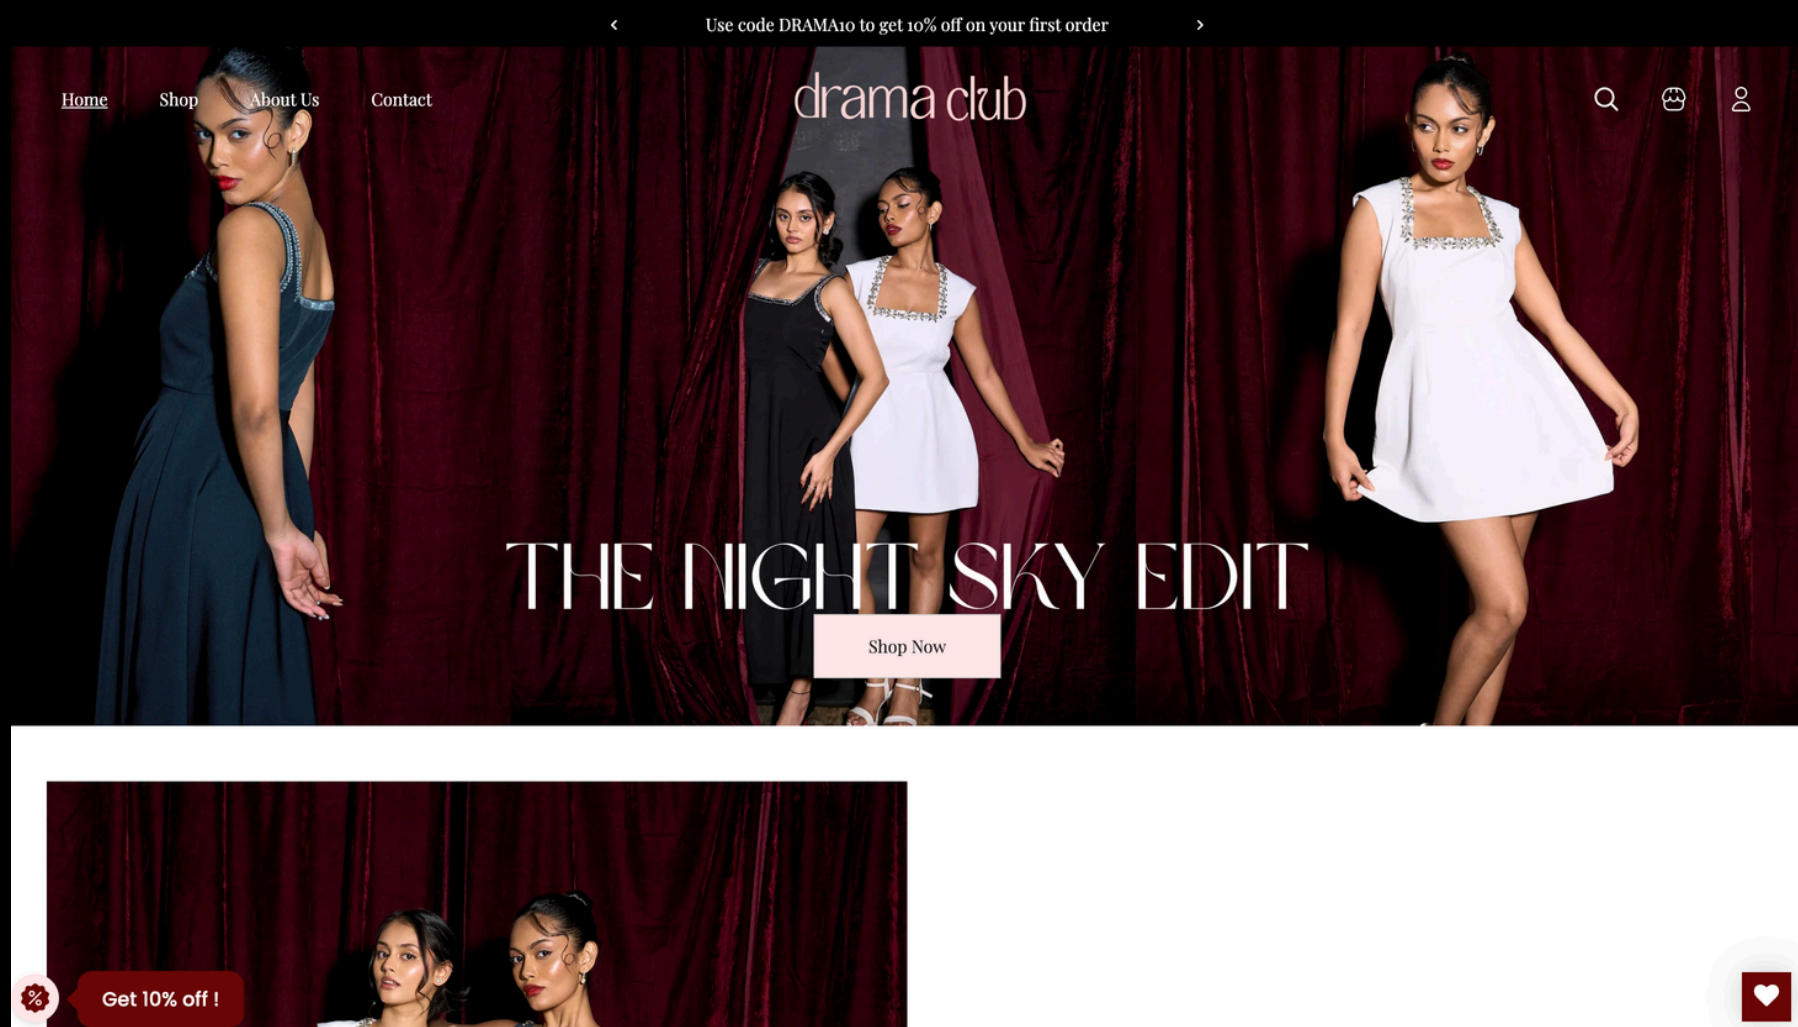

ASCENTRA CAPITAL - COPY TRADING PLATFORM

Asynk is developing a powerful Copy Trading Platform for a client to enable seamless master–child trade execution across Indian stock markets. The platform is designed to help traders and investors automate trade copying from a master account to multiple child accounts, reducing manual effort and improving execution speed.

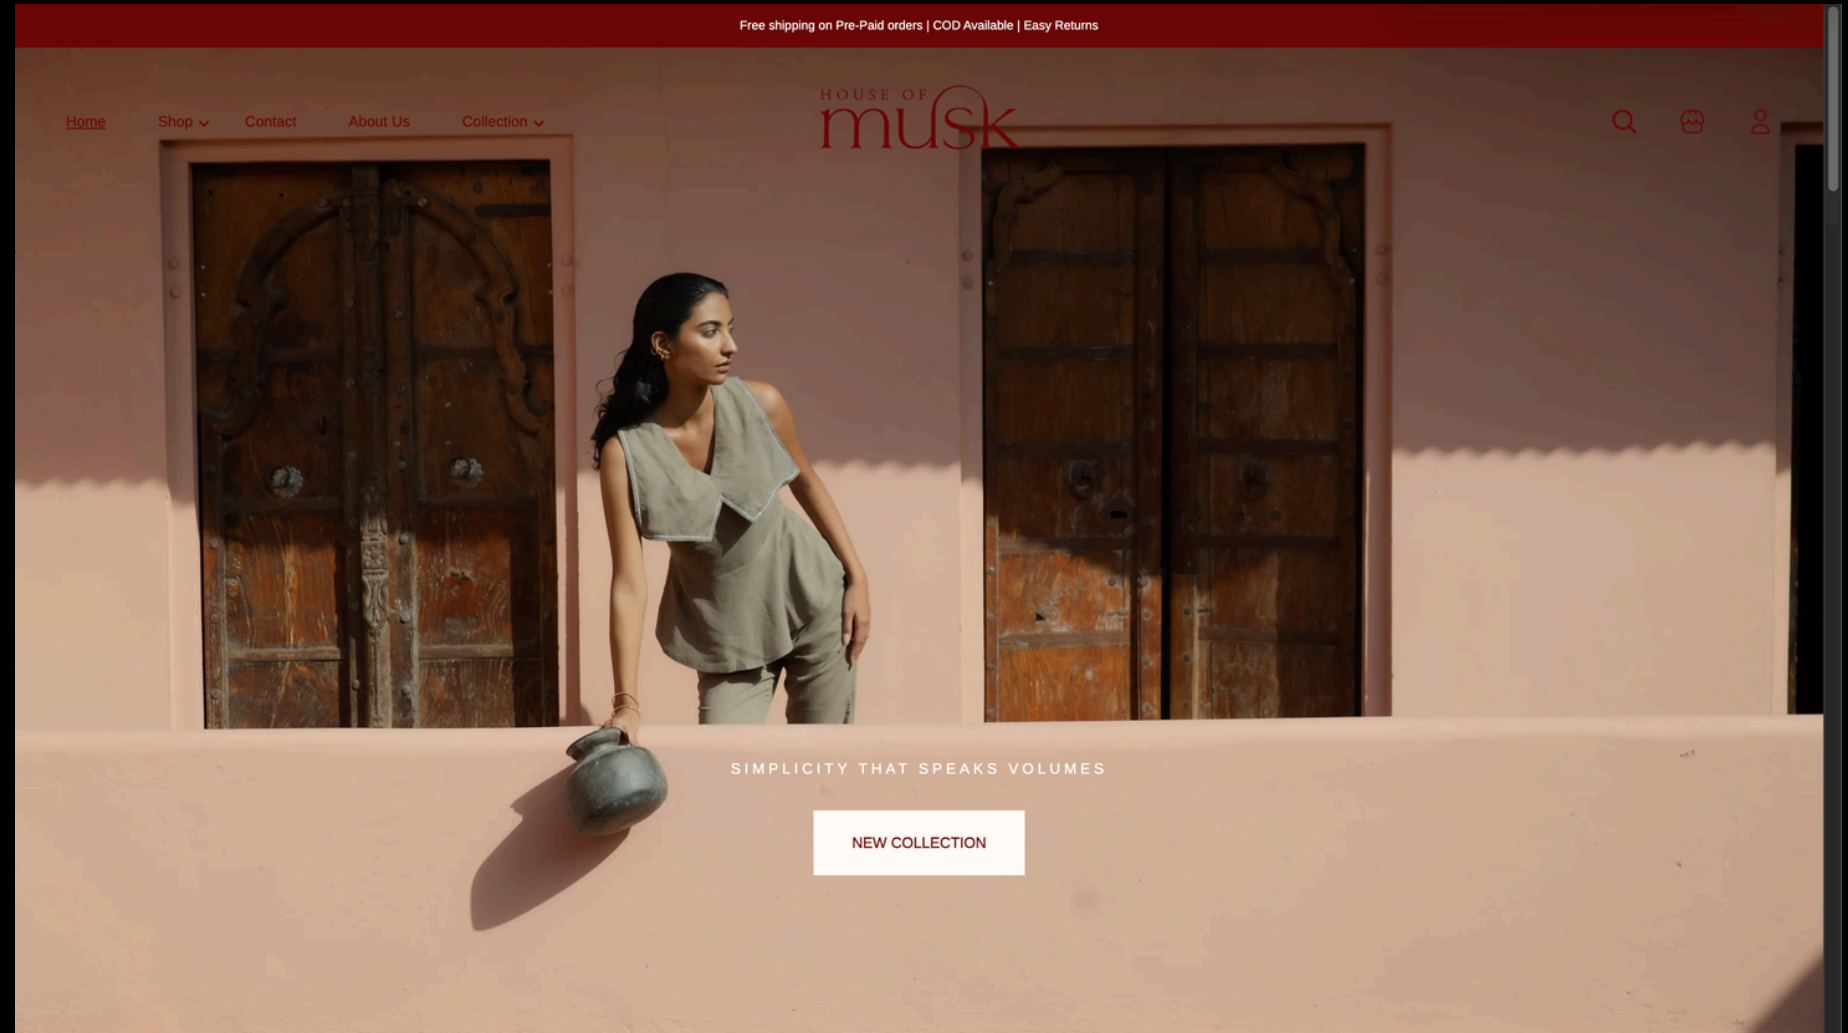

- Master–child trade copy system
- Support for Indian market trading workflows
- Multi-broker account connectivity
- Real-time trade execution and synchronization
- User and account management dashboard
- Risk control and allocation settings
- Trade history, reports, and performance tracking
- Scalable architecture for multiple users and accounts

Drama Club

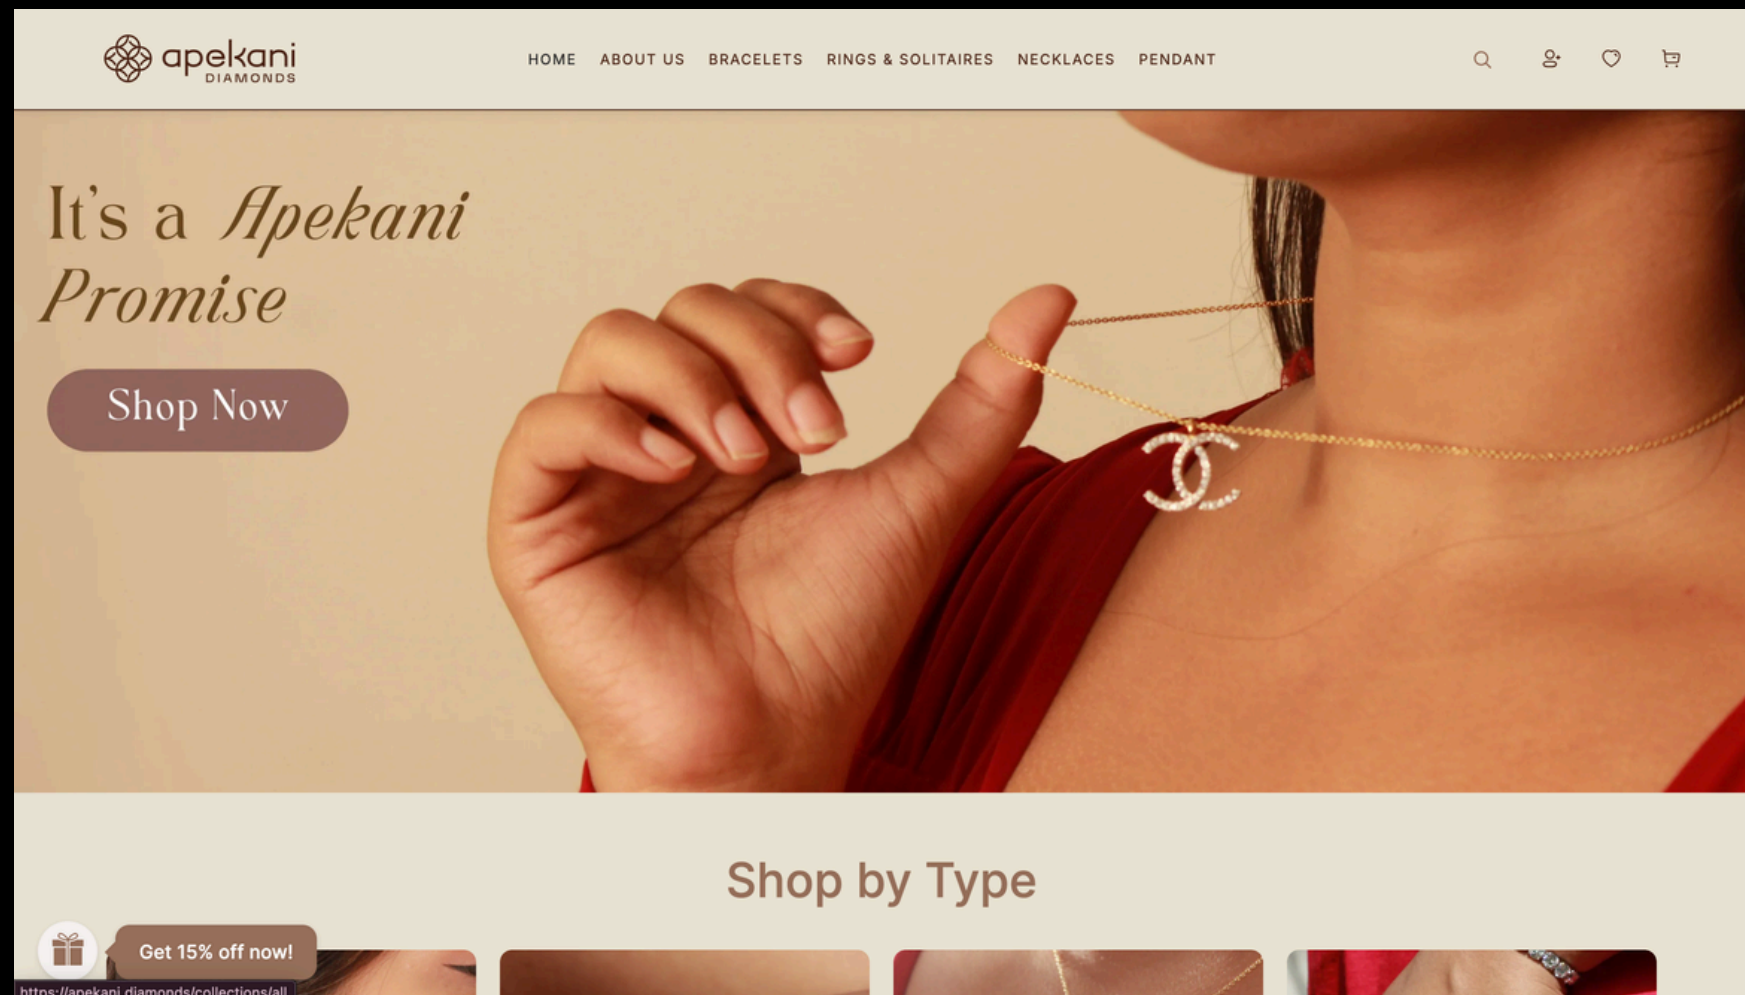

Built an aesthetically beautiful luxury fashion ecommerce website on Shopify with premium product presentation, seamless user experience, and full payment and shipping integration.

House of Musk

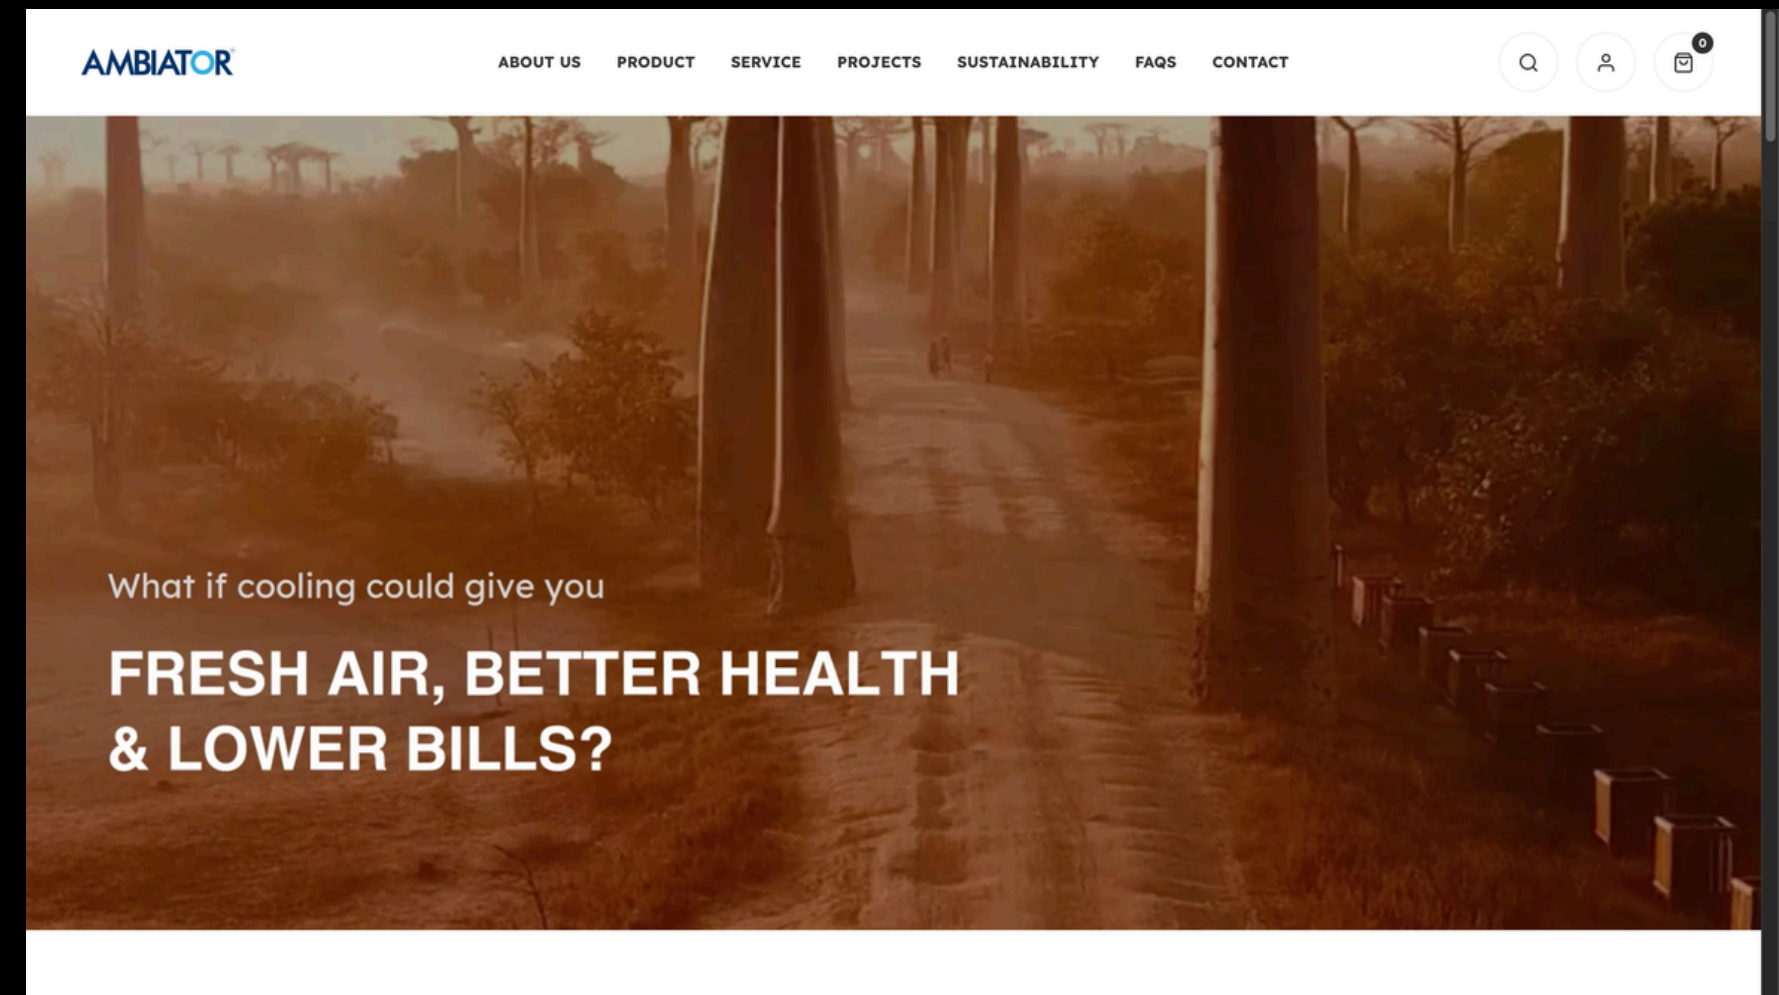

We built a custom Shopify website tailored specifically for a fashion brand with a clean, minimal, and luxury-inspired UI/UX. Designed a visually immersive product detail page focused on high-quality product imagery, spacing, typography, and layout.

ECOMMERCE WEBSITES

Apekani Diamonds

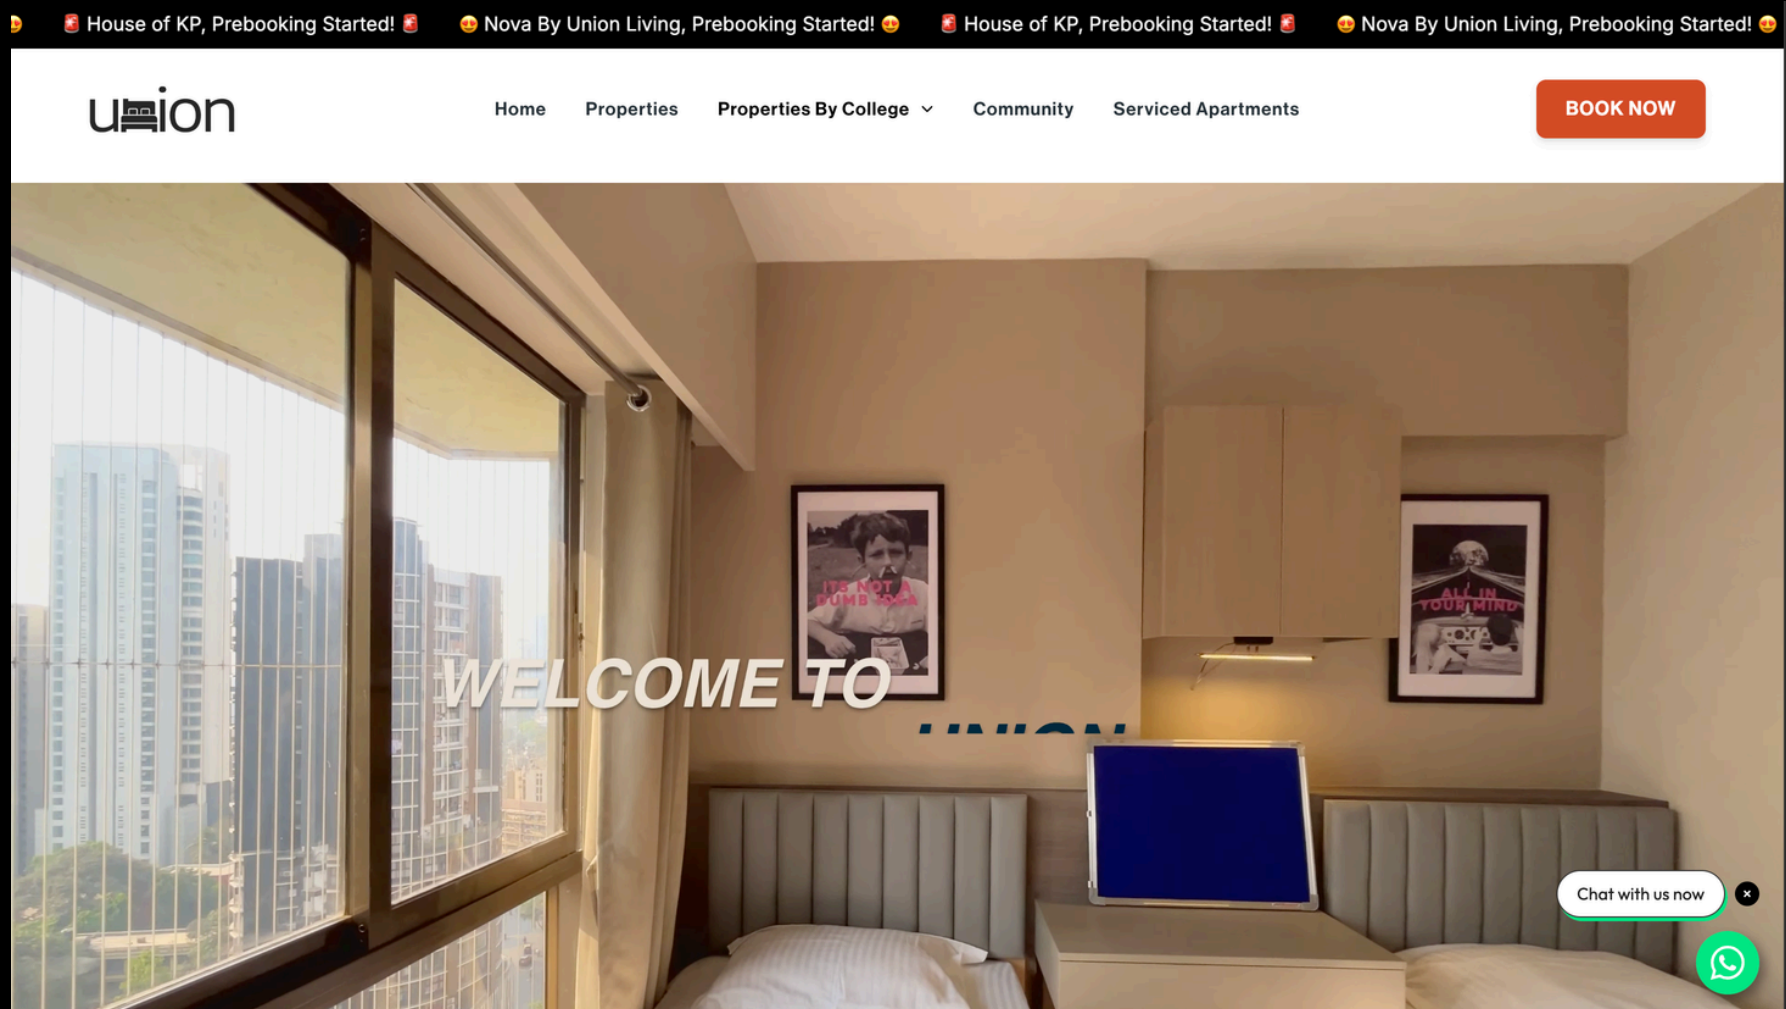

Asynk designed and developed a bespoke jewelry eCommerce website aligned with Apekani Diamonds' brand identity and business goals.

Ambiator

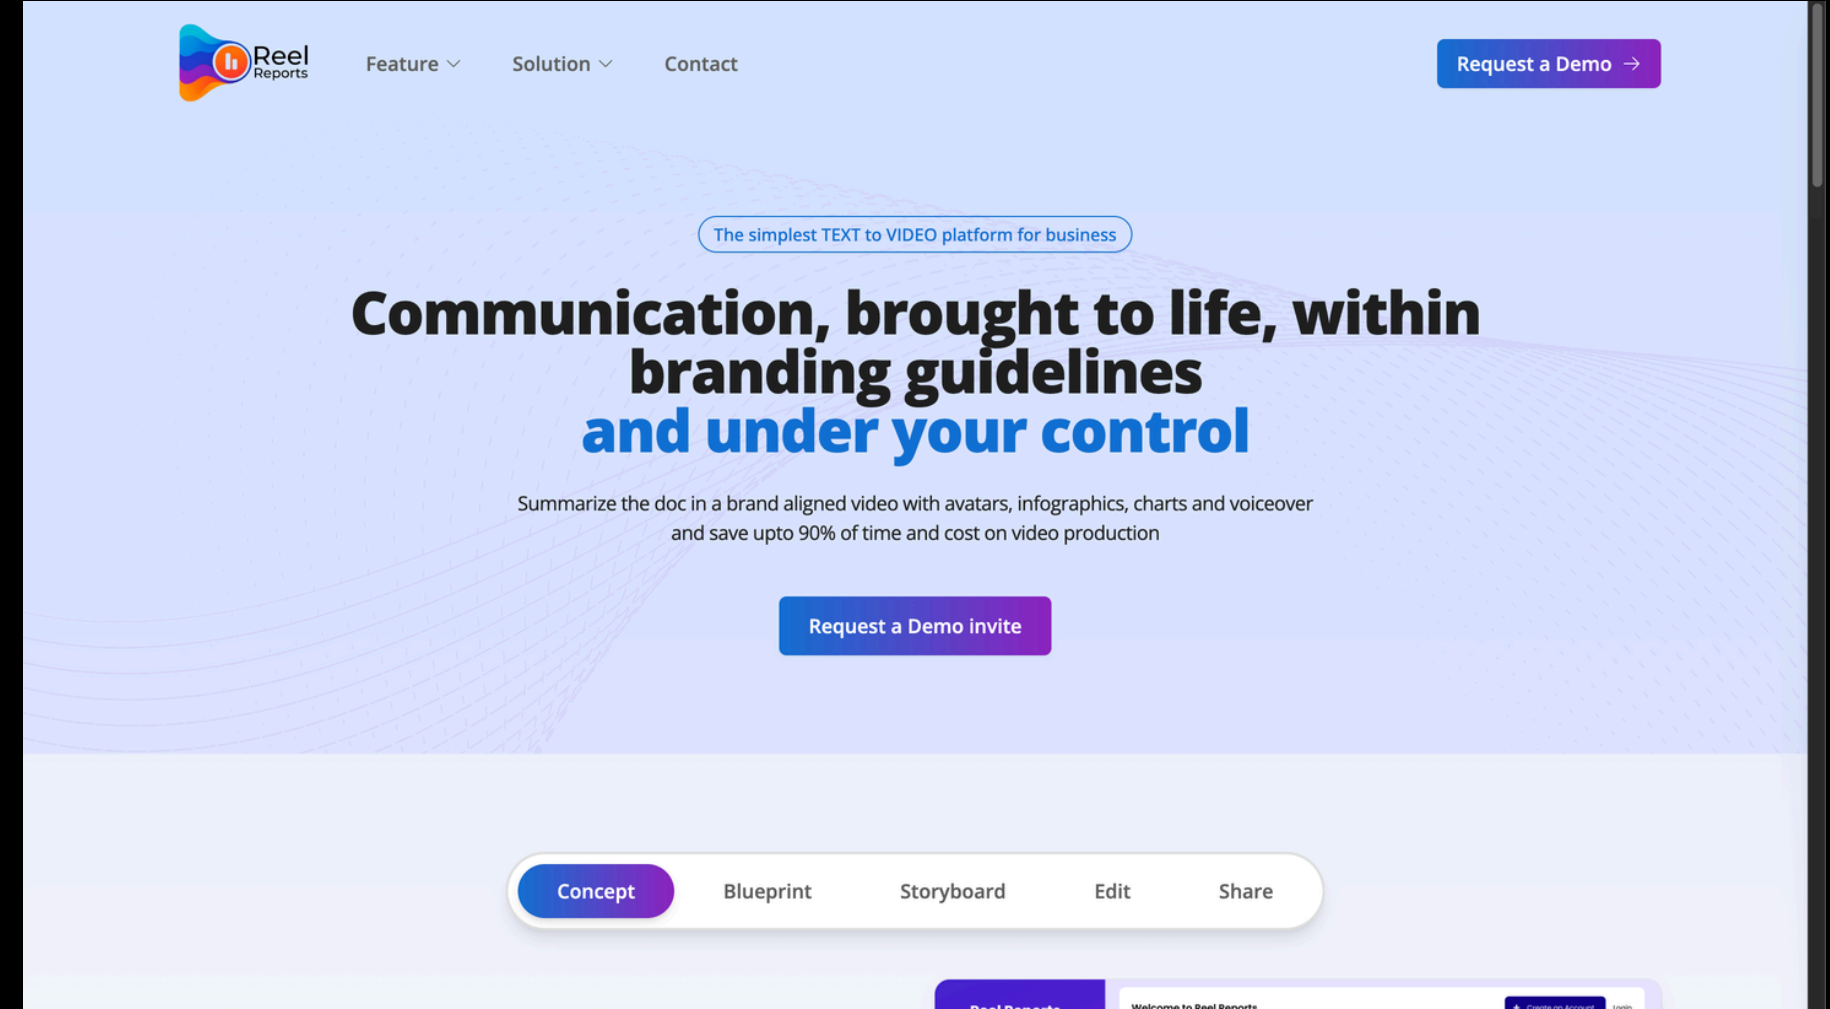

Asynk designed and developed a custom brand website that translates Ambiator's experiential mindset into a compelling digital journey.

ECOMMERCE WEBSITES

UNION LIVING

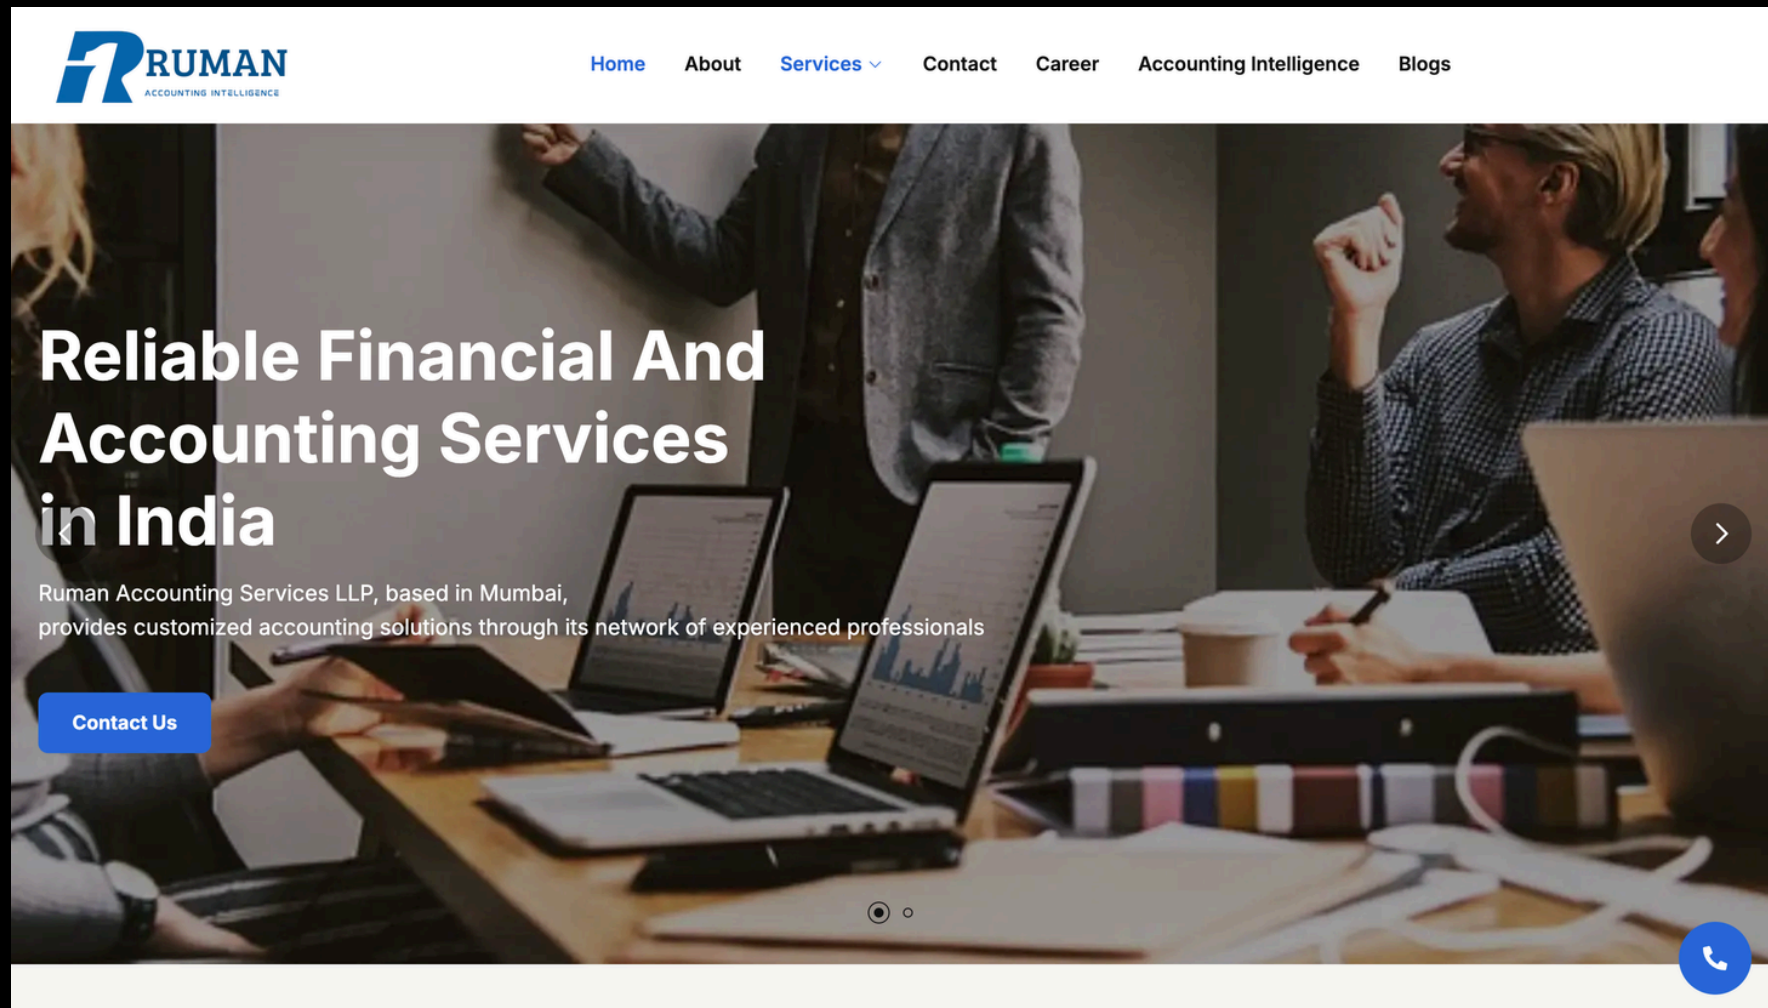

Union Living is a modern home and lifestyle brand focused on delivering thoughtfully designed living solutions. The brand needed a fast, scalable, and content-driven digital presence that could support long-term growth, SEO visibility, and easy content management.

Reel Reports

Asynk designed and developed a custom frontend website aligned with ReelReports.ai's AI-first positioning and product roadmap.

BUSINESS WEBSITES

Ruman Accounting

Asynk designed and developed a custom accounting firm website aligned with Ruman Accounting's brand values and target audience.

Riddhi Siddhi

Designed and developed a professional corporate website on Webflow that accurately reflects the company's scale, expertise, and reliability with easy content management and high performance.
